**SUPPLEMENTARY INFORMATION:** Section 1813 of the Energy Policy Act of 2005 (Pub. L. 109-58) requires the Secretaries of the Department of the Interior and the Department of Energy (Departments) to conduct a study of energy related rights-of-way on tribal lands. The Act requires that the study address four subjects:

1. An analysis of historical rates of compensation;
2. Recommendations for appropriate standards to determine fair and appropriate compensation;
3. An assessment of tribal self-determination and sovereignty interests implicated by applications for energy rights-of-way on tribal land; and
4. An analysis of relevant national energy transportation policies.

The Departments will consider Tribal and interested party's comments in preparing a final report for delivery to Congress by August 7, 2006. A proposed work plan was presented for comment in the **Federal Register** on December 29, 2005 (70 FR 77178).

To help develop the report to Congress, the Departments will conduct a 2-day scoping and kick-off meeting on March 7 and 8, 2006. The Departments will solicit input on how to proceed with this work in a fair and timely manner. At this meeting, the Departments propose to establish several working groups to solicit and further develop information on each of these subjects. We propose to convene these working groups on the second day of the meeting and will solicit initial substantive comments on study issues at that time.

If a Tribe, group, or organization would like to be considered to make a formal presentation at the meeting, please send a written request that includes a subject topic by regular mail or e-mail to the addresses provided above by February 22, 2006.

Dated: February 3, 2006.
