DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before April 17, 2006.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including

through the use of information technology.

Dated: February 8, 2006.

Angela C. Arrington,

IC Clearance Official, Regulatory Information Management Services, Office of the Chief Information Officer.

Type of Review: Revision.

Title: Integrated Postsecondary Education Data System (IPEDS), Web-Based Collection System.

Frequency: Annually.

Affected Public: Not-for-profit institutions; Businesses or other for-profit; State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 44,340.

Burden Hours: 147,867.

Abstract: IPEDS is a system of surveys designed to collect basic data from approximately 6,600 Title IV postsecondary institutions in the United States. The IPEDS provides information on numbers of students enrolled, degrees completed, other awards earned, dollars expended, staff employed at postsecondary institutions, and cost and pricing information. The amendments to the Higher Education Act of 1998, Part C, Sec. 131, specify the need for the “redesign of relevant data systems to improve the usefulness and timeliness of the data collected by such systems.” As a consequence, in 2000 IPEDS began to collect data through a web-based data collection system and to concentrate on those institutions that participate in Title IV Federal student aid programs; other institutions may participate on a voluntary basis.

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Federal Energy Management Program; Standard for Premium Energy Efficient Electric Motors for Federal Acquisition

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: The Energy Policy Act of 2005 (EPAc 2005) requires that in the case of electric motors of 1 to 500 horsepower, Federal agencies shall select only premium efficient motors that meet a standard designated by the Secretary of Energy (Secretary). DOE today designates the energy efficient motor specifications, developed under Executive Order 13123, as the temporary standard for premium efficient motors for purposes of Federal purchasing. Consistent with public comment requirements for “procurement policies” in 41 U.S.C. 418b, DOE invites public comment on the temporary standard. DOE intends to finalize a standard after considering any public comments that are submitted. The temporary specifications are consistent with standards recommended by the National Electrical Manufacturers Association (NEMA), the Consortium for Energy Efficiency (CEE) and other energy efficiency groups.

DATES: The effective date of this notice is February 14, 2006. Comments on this notice are due March 16, 2006.

ADDRESSES: Address all comments concerning this standard to Joan Glickman, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, EE-2L, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-0371, e-mail: joan.glickman@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Joan Glickman, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Federal Energy Management Program (FEMP), EE-2L, 1000 Independence Avenue, SW., Washington, DC 20585-0121, (202) 586-0371, e-mail: joan.glickman@ee.doe.gov.

SUPPLEMENTARY INFORMATION: Section 104 of EPAc 2005 requires that Federal agencies procure only ENERGY STAR qualified products or FEMP-designated products unless the agency finds in writing that no qualifying product is lifecycle cost-effective or is reasonably available that meets the applicable functional requirements. Prior to enactment of EPAc 2005, similar provisions for energy-efficient Federal purchasing were established under Executive Order 13123. With respect to motors, in response to Executive Order 13123, FEMP worked with NEMA and CEE to establish efficiency criteria for low-voltage electric motors as a voluntary standard for Federal procurements.

Part 3 of Title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 *et seq.*), as amended by section 104 of EPAc 2005, requires that in the case of electric motors of 1 to 500 horsepower, Federal agencies shall purchase only premium efficient motors that meet a standard designated by the Secretary no later than 120 days after the date of enactment; EPAc 2005 was enacted on August 8, 2005.

After consultation with NEMA and representatives of energy efficiency organizations participating in the CEE Motors Committee, and subject to evaluation of public comments, DOE today designates as a temporary standard for premium energy efficient motors rated from 1 to 500 HP, the efficiency levels as set forth in Tables 1 and 2 attached to this notice. The efficiency levels in these tables are consistent with the NEMA Premium™ and Premium Efficiency Motors efficiency criteria. They can also be found on the DOE FEMP procurement Web site at http://www.eere.energy.gov/femp/technologies/eep_emotors.cfm, the NEMA Web site at <http://www.nema.org/gov/energy/efficiency/premium/>, and the CEE Web site at <http://www.cee1.org/ind/motrs/motrs-main.php3>.

By using common specifications for premium energy efficient motors, NEMA, CEE, and DOE have helped focus market demand by Federal buyers and utility company customers on a single standard for energy efficiency, thus providing a clear market signal in support of energy efficiency to manufacturers, suppliers, specifiers, and installers of electric motors.

FEMP will periodically review the DOE’s motor efficiency standard and revise it as necessary, in consultation with industry and energy efficiency organizations, to reflect technology advances and/or changing market conditions.

DOE finds that the statutory deadline in section 104 is an urgent and compelling circumstance warranting designation of the standard set forth in this notice on a temporary basis pending receipt and evaluation of public comments. DOE intends to make a final designation after considering any relevant comments that DOE receives.

Issued in Washington, DC, on February 3, 2006.

Douglas L. Faulkner,

Acting Assistant Secretary, Energy Efficiency and Renewable Energy.
