Proposed Project: Application for the National Health Service Corps (NHSC) Scholarship Program (OMB No. 0915-0146): Extension

The National Health Service Corps (NHSC) Scholarship Program's mission

is to ensure the geographic representation of physicians and other health practitioners in the United States. Under this program, health professions students are offered scholarships in return for service in a federally designated Health Professional Shortage Area (HPSA). The Scholarship Program provides the NHSC with the health professionals it requires to carry out its mission of providing primary health care to HPSA populations in areas of greatest need. Students are supported who are well qualified to participate in the NHSC Scholarship Program and who want to assist the NHSC in its mission, both during and after their period of obligated service. Scholars are selected for these competitive awards based on the information provided in the application and during the semi-structured personal interview that is conducted by a team of two interviewers who use a structured scoring procedure. Awards are made to applicants who demonstrate a high potential for providing quality primary health care services.

The estimated response burden is as follows:

Form	Number of respondents	Responses per respondent	Hours per response	Total burden hours
Application	1800	1	1	1800
Interview	900	1	1	900
Total	2700			2700
