All other country raw cane sugar allocations, other than for those countries that are unable to ship additional sugar, remain unchanged from those announced on August 30, 2005 and December 9, 2005.

On February 2, 2006, the Secretary of Agriculture increased the in-quota quantity of the tariff-rate quota for refined sugar for FY 2006 by 226,796 metric tons raw value, none of which is for specialty sugars. A total of 25,000 metric tons raw value is being allocated to Canada and 59,349 metric tons raw value is being allocated to Mexico. The remaining 142,447 metric tons raw value of the in-quota quantity may be supplied by any country on a first-come, first-served basis, subject to any other provision of law. The certificate of quota eligibility is required for sugar entering under the tariff-rate quota for refined sugar that is the product of a country that has been allocated a share of the tariff-rate quota for refined sugar.
