**SUPPLEMENTARY INFORMATION:**

**Background**

AMS received a petition from the Raisin Administrative Committee (RAC), requesting the revision of the United States Standards for Grades of Processed Raisins. These standards are issued under the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627)

The petitioner is requesting that USDA revise the grade standards for section 52.1843 Summary of types (varieties) of processed raisins for Type-I Seedless Raisins. The revision would add the processed raisin type, "Vine-dried (without the application of drying chemicals or materials)" to the current summary as well as modify the type for "Dipped, Vine-dried, or similarly processed raisins" to "Dipped, Vine-dried, treated with drying chemicals or materials or similarly processed raisins."

Prior to undertaking detailed work to develop a proposal, AMS is soliciting comments on the petition to revise the U.S. Standards for Grades of Processed Raisins.

This notice provides for a 60-day comment period for interested parties to comment on the petition to develop a proposed revision of the standards. Should AMS conclude that there is a need for changes to the standards, detailed work could be undertaken as soon as possible and the eventual proposed revised standard would be published in the **Federal Register** with a request for comments in accordance with 7 CFR part 36.

**SUPPLEMENTARY INFORMATION:**

*Title:* Negative QC Review Schedule; Status of Sample Selection and Completion.

*OMB Number:* 0584-0034.

*Form Number:* FNS-245 & FNS-248.

*Expiration Date:* 07/31/06.

*Type of Request:* Revision of currently approved collections.

*Abstract:* The FNS-245, Negative Case Action Review Schedule, is designed to

collect quality control (QC) data and serve as the data entry form for negative case action QC reviews in the Food Stamp Program. State agencies complete the FNS-245 for each negative case in their QC sample. The reporting and recordkeeping burden associated with the completion of the FNS-245 is being reduced from 123,026 hours to 121,572 hours. The decrease is the result of a reduction of the total case selection from 40,262 cases in FY 2001 to 39,782 cases in FY 2004. The FNS-248, Status of Sample Selection and Completion, tracks a State's progress in sample selection and case completion on a monthly basis. A proposed rule entitled "Food Stamp Program: Discretionary Quality Control Provisions of Title IV of Public Law 107-171", was published in the **Federal Register** on September, 23, 2005. The rulemaking proposed to eliminate this form as a means of collecting this information and would allow State agencies to report in a manner as directed by the regional offices. FNS expects to publish a final rule on this subject in October 2006. Until then, FNS-248 will remain in effect. The burden associated with the collection remains unchanged.

*Affected Public:* Individuals or households; State or local governments.
