

60-day comment period) to OMB in order to obtain the full three year clearance.

In order to allow determination of the study areas that are entitled to an expense adjustment, and the wire centers that are entitled to high-cost universal service support, incumbent and competitive telecommunications carriers must provide certain data to the National Exchange Carrier Association (NECA) or the Universal Service Administrative Company annually or quarterly. Local telecommunications carriers who want to participate in the federal universal service support program must make certain informational showings to demonstrate eligibility. The reporting requirements are necessary to implement the congressional mandate for universal service. The reporting requirements are necessary to verify that non-rural and rural local exchange carriers are eligible to receive universal service support. Information filed with NECA pursuant to section 36.611 is used to calculate universal service support payments to eligible carriers. Without this information, NECA would not be able to calculate such payments to eligible carriers.

Bell Operating Companies (BOCs) are required to post their Comparably Efficient Interconnection (CEI) plans and amendments on their publicly accessible Internet sites. The requirement extends to all CEI plans for new or modified telemessaging or alarm monitoring services and for new or amended payphone services. If the BOC receives a good faith request for a plan from someone who does not have Internet access, the BOC must notify that person where a paper copy of the plan is available for public inspection. The CEI plans will be used to ensure that BOCs comply with Commission policies and regulations safeguarding against potential anticompetitive behavior by the BOCs in the provision of information services.

This information collection contains quarterly filing of nondiscrimination reports on quality of service, installation and maintenance by Bell Operating Companies (BOCs). BOCs must submit nondiscrimination reports with regard to payphones to prevent BOCs from discriminating in favor of their own payphones. The reports allow the Commission to determine how the BOCs will provide competing payphone providers with equal access to all the basic underlying network services that are provided to its own payphones.
