SUPPLEMENTARY INFORMATION:

Title: Long-Term Contracting.
OMB Number: 0578-0013.
Expiration Date of Approval: August 31, 2006.

Type of Request: Extension and revision of a currently approved collection for which approval will expire.

Abstract: The primary objective of NRCS is to work in partnership with the American people and the farming and ranching community to conserve and sustain our natural resources. The purpose of Long-Term Contracting information collection is to provide for programs to extend financial and technical assistance through easements and long-term contracts to landowners and others. These programs provide for making land use changes and installing conservation measures and practices to conserve, develop, and use the soil, water, and related natural resources on private lands. For cost-share programs, Federal financial and technical

assistance is based on a conservation plan or schedule of operations that is made a part of an agreement, contract, or easement for a period of time of no less than 1 year and no greater than 10 years. Under the terms of the agreement, the participant agrees to apply, or arrange to apply, the conservation treatment specified in the conservation plan or schedule of operations. In return for this agreement, Federal cost-share payments are made to the land user, or third party, upon successful application of the conservation treatment. For easement programs, NRCS purchases from participants, a conservation easement and provides for the easement's protection and management for the life of the easement.

The information collected through this package is used by NRCS to ensure the proper use of program funds, including application for participation, easement acquisition, contract implementation, conservation planning, and application for payment.

NRCS will ask for a 3-year OMB approval, with revision, within 60 days of submitting the request.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1.42 hours or 85.2 minutes per response.

Respondents: Farms, individuals, or households, or State, local, or tribal governments.

Estimated Number of Respondents: 31,920.

Estimated Total Annual Burden on Respondents: 22,432.

SUPPLEMENTARY INFORMATION:

I. Abstract

EDA's mission is to lead the federal economic agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. EDA will fulfill its mission by fostering entrepreneurship, innovation and productivity through investments in infrastructure development, capacity building and business development in order to attract private capital investments and higher-skill, higher-wage jobs to regions experiencing substantial and persistent economic distress. In order to administer and monitor its economic development programs and its Trade Adjustment Assistance for Firms program effectively, EDA collects certain information from applicants for, and recipients of, EDA investment assistance.

On August 11, 2005 EDA published an interim final rule in the **Federal Register** (70 FR 47002) revising its regulations to reflect the amendments made to PWEDA by the Economic Development Administration Reauthorization Act of 2004 (Pub. L. 108-373) (the "2004 Act"). With limited exceptions, the interim final rule (IFR) became effective on October 1, 2005. On December 15, 2005, EDA published a second interim final rule in the **Federal Register** (70 FR 74193) to put into effect immediately only those changes to the August 11, 2005 interim final rule specified in the Conference Report (H.R. Conf. Rep. No. 109-272) accompanying the FY 2006 Science, State, Justice, Commerce and Related Agencies Appropriations Act (Pub. L. 109-108).

EDA conducted a review of its forms and other information collections to ensure that they are consistent with the amendments to PWEDA made by the
