Negative Determinations for Alternative Trade Adjustment Assistance

In order for the Division of Trade Adjustment Assistance to issue a certification of eligibility to apply for Alternative Trade Adjustment Assistance (ATAA) for older workers, the group eligibility requirements of Section 246(a)(3)(A)(ii) of the Trade Act must be met.

In the following cases, it has been determined that the requirements of Section 246(a)(3)(ii) have not been met for the reasons specified.

Since the workers are denied eligibility to apply for TAA, the workers cannot be certified eligible for ATAA.

TA-W-58,733; Ranco North America, Division: Com-Trol, A Subsidiary of Invensys, Mansfield, OH.
 TA-W-58,653; AK Steel, Butler Works, Butler, PA.
 TA-W-58,036; Liberty Carton, New England Division, Peabody, MA.
 TA-W-58,236; Natick Paperboard Corp., Paperboard Mill Div., Natick, MA.
 TA-W-58,585; Goodyear Tire and Rubber Company, Engineered Products Division, St. Marys, OH.
 TA-W-58,569; OBG Distribution Company, LLC, Celina, TN.
 TA-W-58,632; Leyold Vacuum, USA, Tempe, AZ.
 TA-W-58,675; Outsource Partners International, Houston, TX.
 TA-W-58,743; Getronics, Call Center, Tampa, FL.
 TA-W-58,718; Schoeller Arca Systems, Tacoma, WA.

The Department has determined that criterion (1) of Section 246 has not been met. Workers at the firm are 50 years of age or older.

TA-W-58,658; CMOR Manufacturing, Inc., Rocklin, CA.

The Department has determined that criterion (2) of Section 246 has not been met. Workers at the firm possess skills that are easily transferable.

TA-W-58,550; Baxter Healthcare Corporation, Financial Center of Excellence, Deerfield, IL,
 TA-W-58,700; Deutsch Engineered Connecting Devices, Defense/Aerospace Div., Hemet, CA.

The Department has determined that criterion (3) of Section 246 has not been met. Competition conditions within the workers' industry are not adverse.

None.

I hereby certify that the aforementioned determinations were issued during the month of February 2006. Copies of these determinations are available for inspection in Room C-5311, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210 during normal business hours or will be mailed to persons who write to the above address.

Dated: February 24, 2006.

Erica R. Cantor,

Director, Division of Trade Adjustment Assistance.

Saint Gobain Calmar, City of Industry, CA; Notice of Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, as amended, an investigation was initiated on February 3, 2006 in response to a worker petition filed by a company official on behalf of workers at Saint-Gobain Calmar, City of Industry, California.

The petitioner has requested that the petition be withdrawn. Consequently, the investigation has been terminated.

Signed at Washington, DC this 15th day of February 2006.

Richard Church,

Certifying Officer, Division of Trade Adjustment Assistance.

[TA-W-58,113]

Unimatrix Americas, Greensboro, NC; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter dated January 4, 2006, a petitioner requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to workers of the subject firm. The denial notice was signed on November 16, 2005, and

published in the **Federal Register** on December 6, 2005 (70 FR 72655).

The investigation revealed that the petitioning workers of this firm or subdivision do not produce an article within the meaning of Section 222 of the Act.

The Department reviewed the request for reconsideration and has determined that the petitioner has provided additional information. Therefore, the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 22nd of February, 2006.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Notification of Methane Detected in Mine Atmosphere

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506 (c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the extension of the information collection related to the 30 CFR 57.22004(c), 57.22229, 5722230,

5722231, and 57.22239; Methane Detected in Mine Atmosphere.

DATES: Submit comments on or before May 1, 2006.

ADDRESSES: Send comments to U.S. Department of Labor, Mine Safety and Health Administration, John Rowlett, Director, Management Services Division, 1100 Wilson Boulevard, Room 2134, Arlington, VA 22209-3939.

Commenters are encouraged to send their comments on a computer disk, or via Internet E-mail to Rowlett.John@dol.gov, along with an original printed copy. Mr. Rowlett can be reached at (202) 693-9827 (voice), or (202) 693-9801 (facsimile).

FOR FURTHER INFORMATION CONTACT:

Contact the employee listed in the **ADDRESSES** section of this notice.

SUPPLEMENTARY INFORMATION:

I. Background

Sections 103(c), (l), and (j) of the Federal Mine Safety and Health Act of 1977 authorizes the inspection, recordkeeping and reporting requirements implemented in 30 CFR 57, Subpart T-Safety Standards for Methane in Metal and Nonmetal mines. Methane is a flammable gas found in underground mining. Methane is a colorless, odorless, tasteless gas, and it tends to rise to the roof of a mine because it is lighter than air. Although methane itself is nontoxic, its presence reduces oxygen content by dilution when mixed with air, and consequently can act as an asphyxiant when present in large quantities. Methane mixed with air is explosive in the range of 5 to 15 percent, provided that 12 percent or more oxygen is present. The presence of dust containing volatile matter in the mine atmosphere may further enhance the explosion potential of methane in a mine.

Metal and Nonmetal mine operators are required to notify MSHA as soon as possible if any of the following events occur: (a) There is an outburst that results in 0.25 percent or more methane in the mine atmosphere; (b) there is a blowout that results in 0.25 percent or more methane in the mine atmosphere; (c) there is an ignition of methane; (d) air sample results indicate 0.25 percent or more methane in the mine atmosphere of a Subcategory I-B, I-C, II-B, V-B, or Category VI mine. If methane reaches 2.0 percent in a Category IV mine; or methane reaches 0.25 percent in the mine atmosphere of a Subcategory I-B, II-B, V-B, and VI mines, MSHA shall be notified immediately. MSHA investigates these occurrences to determine that the mine is placed in the proper category.

II. Desired Focus of Comments

MSHA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice, or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov>) and then choosing "Statutory and Regulatory Information" and "Federal Register Documents."

III. Current Actions

MSHA is seeking an extension of the information collection related to certification and notification of methane detected in mine atmosphere.

Type of Review: Extension.

Agency: Mine Safety and Health Administration.

Title: Methane Detected in Mine Atmosphere.

OMB Number: 1219-0103.

Recordkeeping: Certification of examinations shall be kept for at least one year.

Frequency: On Occasion.

Affected Public: Business or other for-profit.

Respondents: 8.

Responses: 416.

Total Burden Hours: 36 hours.

Total Burden Cost (operating/maintaining): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.
