

diseases; attitudes toward marriage, childbearing, and parenthood; and men's and women's roles in raising children.

While the content of Cycle 7 will be similar to that of Cycle 6, the interviewing will be conducted over a 4.5-year period rather than all in one year, as in previous cycles. This continuous interviewing design is intended to reduce costs, increase efficiency, and contribute to continuous improvement in the collection, processing, and dissemination of the data. Sample size is expected to increase

from 12,571 in Cycle 6 to 17,400 total in the 4.5 years of data collection in Cycle 7. For this cycle, the "Pretest" will be conducted initially in the first 8 weeks of interviewing and, if no problems are found, those weeks will become part of the Main Study. If operational problems are found in that period, they will be corrected, and the "Main Study" will begin at that point. Emerging public policy issues may necessitate the addition of a few new questions. The burden table represents the survey collection averaged over the first three years of the survey.

Users of the NSFG include the National Institutes of Health National Institute of Child Health and Human Development; the Office of Population Affairs; NCHS/CDC; the Division of Reproductive Health, CDC; the Divisions of HIV/AIDS Prevention, CDC; the Office of the Assistant Secretary for Planning and Evaluation; and the Administration for Children and Families.

There are no costs to the respondents other than their time. The total estimated annualized burden hours are 6,457

#### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**AGENCY:** Centers for Medicare & Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the Agency's function; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Revision of a currently

approved collection; *Title of Information Collection:* Manufacturer Submission of Average Sales Price (ASP) Data for Medicare Part B Drugs and Biologicals And Supporting Regulations in 42 CFR 414.804; *Form No.:* CMS-10110 (OMB #0938-0921); *Use:* In accordance with section 1847A of the Social Security Act (the Act), Medicare Part B covered drugs and biologicals not paid on a cost or prospective payment basis are paid based on the average sales price of the drug or biological, beginning in CY 2005. The ASP data reporting requirements are specified in section 1927 of the Act. The reported ASP data are used to establish the Medicare payment amounts. CMS will utilize the ASP data to determine the drug payment amounts for CY 2005 and beyond. In the interim final rule which published April 6, 2004 (69 FR 17935), the ASP reporting format, (Addendum A), was specified. In addition, we stated that, as we gain more experience with the ASP methodology, we may seek to modify the reporting requirements (data elements and format for submission) in the future. Based on our experience during the initial six reporting periods, we have found it necessary for carrying out section 1847A of the Act, to expand the ASP data collected from manufacturers.

We are proposing that, in addition to the original data elements (manufacturer name, National Drug Code (NDC), manufacturer's ASP, and number of units), the following data elements must be submitted quarterly by manufacturers:

- Name of drug or biological;
- Strength of the product;
- Volume per item;
- Number of items per NDC;
- Wholesale acquisition costs (applies to NDCs assigned to single source drug and biological billing codes and NDCs during the initial period under section 1847A(c)(4) of the Act);
- Expiration date of the last lot sold;
- Date NDC was first available for sale; and
- Date of first sale.

We are also proposing that manufacturers would no longer report ASP data for an NDC beginning the reporting period after the expiration date of the last lot sold. For NDCs first made available for sale or sold on or after October 1, 2005, we are also proposing to collect the date the NDC was first available for sale and the date of first sale. We are also proposing that manufacturers be required to submit these dates to us once with the first or second, if applicable, data submission for new NDCs. In addition, we are
