Comment Requested

This notice of intent initiates the scoping process which guides the development of the supplemental environmental impact statement. Comments regarding the revised cumulative effects analysis will be accepted for 45 days after this notification in the **Federal Register**. These comments will help the Forest Service determine the scope of the requisite cumulative effects analysis, and what information regarding past actions is useful and relevant. Send written comments to Darcy Pederson, District Ranger, 1005 Highway 13, Grangeville, Idaho 83530, Attn: Meadow Face Stewardship.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft supplemental environmental impact statement will be prepared after consideration of responses to this scoping and completion of the requisite cumulative effects analysis. The comment period on the draft supplemental environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

It is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of the draft supplemental environmental impact statement must structure their comments so they are meaningful and alert the agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft supplemental environmental impact statement stage, but that are not raised until after completion of the final supplemental environmental impact statement, may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). It is very important that those interested in the cumulative effects analysis for the

Meadow Face Stewardship Pilot Project participate by the close of the 45-day comment period on the draft supplemental environmental impact statement so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final supplemental environmental impact statement.

To assist the Forest Service in completing the final supplemental environmental impact statement, comments on the draft supplemental environmental impact statement will need to be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received in response to this scoping notice as well as comments received on the subsequent Supplemental Environmental Impact Statement, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.
