Family Violence Prevention and Services/Grants for Battered Women’s Shelters and Related Assistance/Grants to States

Program Office: Administration on Children, Youth and Families (ACYF), Family and Youth Services Bureau (FYSB).

Announcement Title: Family Violence Prevention and Services/Grants for Battered Women’s Shelters and Related Assistance/Grants to States.

CFDA Number: 93.671.

Due Date for Applications: April 6, 2006

Executive Summary: This announcement governs the proposed award of mandatory grants under the Family Violence Prevention and Services Act (FVPSA) to States (including Territories and Insular Areas). The purpose of these grants is to assist States in establishing, maintaining, and expanding programs and projects to prevent family violence and to provide immediate shelter and related assistance for victims of family violence and their dependents. This announcement sets forth the application requirements, the application process, and other administrative and fiscal requirements for grants in Fiscal Year (FY) 2006.

I. Description

The purpose of this legislation is to assist States and Indian Tribes, Tribal organizations, and non-profit private organizations approved by an Indian Tribe in supporting the establishment, maintenance, and expansion of programs and projects to prevent incidents of family violence and to provide immediate shelter and related assistance for victims of family violence and their dependents.

Background

During FY 2005, 237 grants were made to States and Indian Tribes, Tribal organizations, non-profit private organizations approved by Indian Tribes. The Department of Health and Human Services (HHS) also made 53 family violence prevention grant awards to non-profit State domestic violence coalitions.

In addition, HHS supports the National Resource Center for Domestic Violence (NRC) and four Special Issue Resource Centers (SIRCs). The four SIRCs are the Battered Women’s Justice Project, the Resource Center on Child Custody and Protection, Sacred Circle Resource Center for the Elimination of Domestic Violence Against Native Women, and the Health Resource Center on Domestic Violence. The purpose of NRC and SIRCs is to provide resource information, training, and technical assistance to Federal, State, and Native American agencies, local domestic violence prevention programs, and other professionals who provide services to victims of domestic violence.

In February 1996, HHS funded the National Domestic Violence Hotline (NDVH) to ensure that every woman has access to information and emergency assistance wherever and whenever she needs it. NDVH is a 24-hour, toll-free service that provides crisis assistance, counseling, and local shelter referrals to women across the country. Hotline counselors also are available for non-English speaking persons and for people who are hearing-impaired. The Hotline number is 1–800–799–SAFE (7233); the TTY number for the hearing-impaired is 1–800–787–3224.

General Grant Program Requirements Applicable to States

Definitions

States should use the following definitions in carrying out their programs. The definitions are found in section 320 of FVPSA.

Family Violence: Any act or threatened act of violence, including any forceful detention of an individual, which (a) results or threatens to result in physical injury and (b) is committed by a person against another individual (including an elderly person) to whom such person is or was related by blood or marriage or otherwise legally related or with whom such person is or was lawfully residing.

Shelter: The provision of temporary refuge and related assistance in compliance with applicable State law and regulation governing the provision, on a regular basis, which includes shelter, safe homes, meals, and related assistance to victims of family violence and their dependents.

Related Assistance: The provision of direct assistance to victims of family violence and their dependents for the purpose of preventing further violence, helping such victims to gain access to civil and criminal courts and other community services, facilitating the efforts of such victims to make decisions concerning their lives in the interest of safety, and assisting such victims in healing from the effects of the violence. Related assistance includes:

(a) Prevention services such as outreach and prevention services for victims and their children, assistance for children who witness domestic violence, employment training, parenting and other educational services for victims and their children, and preventive health services within domestic violence programs (including...
nutrition, disease prevention, exercise, and prevention of substance abuse), domestic violence prevention programs for school-age children, family violence public awareness campaigns, and violence prevention counseling services to abusers;

(b) Counseling with respect to family violence, counseling or other supportive services by peers, individually or in groups, and referral to community social services;

(c) Transportation and technical assistance with respect to obtaining financial assistance under Federal and State programs, and referrals for appropriate health-care services (including alcohol and drug abuse treatment), but shall not include reimbursement for any health-care services;

(d) Legal advocacy to provide victims with information and assistance through the civil and criminal courts, and legal assistance; or

(e) Children’s counseling and support services, and child care services for children who are victims of family violence or the dependents of such victims, and children who witness domestic violence.

Annual State Administrators Grantee Conference

The annual grantee conference for the State FVPSA Administrators is a training and technical assistance activity. A subsequent Program Instruction and/or Information Memorandum will advise the State FVPSA Administrators of the date, time and location of their grantee conference.

Client Confidentiality

FVPSA programs must establish or implement policies and protocols for maintaining the safety and confidentiality of the adult victims and their children of domestic violence, sexual assault, and stalking. It is essential that the confidentiality of individuals receiving FVPSA services be protected. Consequently, when providing statistical data on program activities and program services, individual identifiers of client records will not be used (section 303(a)(2)(E)).

Stop Family Violence Postal Stamp

The U.S. Postal Service was directed by the “Stamp Out Domestic Violence Act of 2001” (the Act), Public Law 107–62, to make available a “semipostal” stamp to provide funding for domestic violence programs. Funds raised in connection with sales of the stamp, less reasonable costs, have been transferred to HHS in accordance with the Act for support of services to children and youth affected by domestic violence.

As a result of the transfer of $1.3 million in 2005, a grant offering was made for the development of “Demonstration Programs for The Enhanced Services to Children and Youth Who Have Been Exposed to Domestic Violence.” Sixty-five (65) applications were received and reviewed. Nine (9) grant applications of approximately $130,000 each have been approved and are in the process of being funded. Detailed information on the successful applicants and their programs will be shared with State FVPSA Administrators upon official initiation of the grants.

The Importance of Coordination of Services

The impacts of family and intimate violence include physical injury and death of primary or secondary victims, psychological trauma, isolation from family and friends, harm to children witnessing family violence, homes in which the violence occurs, increased fear, reduced mobility and employability, homelessness, substance abuse, and a host of other health and related mental health consequences.

Coordination and collaboration among the police, prosecutors, the courts, victim services providers, child welfare and family preservation services, and medical and mental health service providers is needed to provide more responsive and effective services to victims of domestic violence and their families. It is essential that all interested parties are involved in the design and improvement of intervention and prevention activities.

To help bring about a more effective response to the problem of domestic violence, HHS urges the designated State agencies receiving funds under this grant announcement to coordinate activities funded under this grant with other new and existing resources for the prevention of family and intimate violence and related issues.

Documenting Our Work (DOW) Initiative

The need to accurately communicate reliable and appropriate data that captures the impact of domestic violence prevention work and to provide shelters, States and State domestic violence coalitions with tools for self-assessment continues as the DOW Initiative. In conjunction with representatives for State FVPSA programs, State domestic violence coalitions, and experts on both data collection and domestic violence prevention issues, the effort to develop informative, succinct and non-burdensome reporting formats will continue with the hope of concluding in this fiscal year. Any changes in informational needs and reporting formats will be accompanied by specifically designated workshops or adjuncts to regularly occurring meetings.

II. Funds Available

For FY 2006, HHS will make available for grants to designated State agencies 70 percent of the amount appropriated under section 310(a)(1) of FVPSA, which is not reserved under section 310(a)(2). In separate announcements, HHS will allocate 10 percent of the foregoing appropriation to the Tribes and Tribal organizations for the establishment and operation of shelters, safe houses, and the provision of related services, and 10 percent to the State Domestic Violence Coalitions to continue their work within the domestic violence community by providing technical assistance and advocacy services among other activities with local domestic violence programs and to encourage appropriate responses to domestic violence within the States.

Five percent of the amount appropriated under section 310(a)(1) of FVPSA, which is not reserved under section 310(a)(2), will be available in FY 2006 to continue the support for the NRC and the four SIRCs. Additional funds appropriated under FVPSA will be used to support other activities, including training and technical assistance, collaborative projects with advocacy organizations and service providers, data collection efforts, public education activities, research and other demonstration projects as well as the ongoing operation of NDVH.

State Allocation

FVPSA grants to the States, the District of Columbia, and the Commonwealth of Puerto Rico are based on a population formula. Each State grant shall be $600,000 with the remaining funds allotted to each State on the same ratio as the population of the State has to the population of all States (section 304(a)(2)). State populations are determined on the basis of the most recent census data available to the Secretary of HHS and, the Secretary shall use for such purpose, if available, the annual current census data produced by the Secretary of Commerce pursuant to section 1818 of Title 13.

For the purpose of computing allotments, the statute provides that Guam, American Samoa, the Virgin Islands, and the Northern Mariana
Islands will each receive grants of not less than one-eighth of one percent of the amounts appropriated (section 304(a)(1)).

**Expenditure Period**

FVPSA funds may be used for expenditures on and after October 1 of each fiscal year for which they are granted, and will be available for expenditure through September 30 of the following fiscal year, i.e., FY 2006 grants may be used for expenditures from October 1, 2005, through September 30, 2007. Funds will be available for obligations only through September 30, 2006, and must be liquidated by September 30, 2007.

Re-allotted funds, if any, are available for expenditure until the end of the fiscal year following the fiscal year that the funds became available for re-allocation. FY 2006 grant funds that are made available to the States through re-allocation, under section 304(d)(2), must be expended by the State no later than September 30, 2008.

**III. Eligibility**

"States" as defined in section 320 of FVPSA are eligible to apply for funds. The term "State" means each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

In the past, Guam, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and American Samoa have applied for funds as a part of their consolidated grant under the Social Services Block grant. These jurisdictions need not submit an application under this Program Announcement if they choose to have their allotment included as part of a consolidated grant application.

**Additional Information on Eligibility**

**D–U–N–S Requirement**

All applicants must have a D&B Data Universal Numbering System (D–U–N–S) number. On June 27, 2003, the Office of Management and Budget (OMB) published in the Federal Register a new Federal policy applicable to all Federal grant applicants. The policy requires Federal grant applicants to provide a D–U–N–S number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The D–U–N–S number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal, Grants.gov. A D–U–N–S number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement, and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a D–U–N–S number. You may acquire a D–U–N–S number at no cost by calling the dedicated toll-free D–U–N–S number request line at 1–866–705–5711 or you may request a number online at http://www.dnb.com.
