Agency Information Collection Activities: Proposed Collection Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Public Law 104-13), the Health Resources and Services Administration

(HRSA) will publish periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans, call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques

of other forms of information technology.

Proposed Project: Sentinel Centers Network Technical Assistance Needs Assessment (NEW)

HRSA's Bureau of Primary Health Care (BPHC) established the Sentinel Centers Network (SCN) to assist in addressing critical quality, programmatic, and policy issues. Health centers submit core data periodically that is extracted from existing information systems. In order to assess needs for technical assistance (TA), information will be requested from centers regarding current information systems, updates/changes to information systems, and other TA needs. This information will be collected periodically via a project Web site and will be used to manage the ongoing needs of network participants.

The burden estimate for this project is as follows:

Form	Number of respondents	Number of responses per respondent	Total responses	Hours per response	Total burden hours
TA Inventory	38	4	152	.25	38

Send comments to Susan G. Queen, Ph.D., HRSA Reports Clearance Officer, Room 10-33 Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857. Written comments should be received with 60 days of this notice.

Dated: March 1, 2006.
Tina M. Cheatham,
Director, Division of Policy Review and Coordination.

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Pub. L. 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to OMB under the Paperwork Reduction Act of 1995. To

request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, call the HRSA Reports Clearance Officer at 301-443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Women's Physical Activity and Eating Tools Assessment: NEW

The HRSA Office of Women's Health (OWH) developed the Bright Futures for Women's Health and Wellness (BFWHW) Initiative to help expand the scope of women's preventive health activities, particularly related to nutrition and physical activity. Building upon a previous pilot study, an intermediate assessment of the BFWHW health promotion tools and materials related to physical activity and healthy

eating will be conducted in order to identify characteristics of both individual and organizational change toward health and wellness associated with the uptake and use of the BFWHW tools. This data collection effort will ensure that the BFWHW tools are disseminated and utilized in the most effective ways, used to inform future BFWHW programming, and added to the literature regarding evidence-based women's health and wellness initiatives.

Towards this end, questionnaires will be used to collect data from adolescent and adult women clients, providers, and administrators of community health provider organizations. Data collected will include process, impact, and outcome measures. Data domains include the implementation and use of the BFWHW tools, including distribution and use; provider training; organizational characteristics related to successful implementation; client and provider awareness; attitudes about the importance of physical activity, nutrition and self-efficacy to take steps to make effective changes; increase in knowledge and intent to change behavior after exposure; and short-term outcomes related to improved preventive healthcare for women. A total of six organizations, which may include HHS Centers of Excellence and Community Centers of Excellence in
