What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological

collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply to?

Affected entities: Entities potentially affected by this action are Environmental Information Exchange Network grant recipients. These recipients include state, territorial, and tribal governments.

Title: Exchange Network Grants Progress Report Renewal.

ICR numbers: EPA ICR No. 2207.02, OMB Control No. 2025-0006.

ICR status: This ICR is for a renewal of information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in Title 40 of the Code of Federal Regulations (CFR), after OMB approval. The OMB control numbers are displayed in 40 CFR part 9, or may be displayed by other appropriate means, such as on the collection forms.

Abstract: This notice announces the proposed collection of information related to the U.S. EPA Environmental Information Exchange Network (EIEN) Grant Program. The EPA Office of Environmental Information provides funding to EPA's Exchange Network partners: States; territories; and Federally recognized Indian tribes to support the development of the EIEN. The EIEN is an Internet-and-standards-based, secure information system that

supports the electronic collection, exchange, and integration of data among its partners. The goal of the EIEN is to improve information quality, timeliness, accessibility and the ability to integrate data, while offering business process improvements. Funding for the Grant Program has been provided through annual congressional appropriations for the EPA.

To enhance the quality and overall public benefit of the Network, EPA proposes to collect information from the EIEN grantees about how they intend to ensure quality in their projects and the environmental outcomes and outputs from their projects. The proposed Quality Assurance Reporting Form is intended to provide a simple means for grant recipients to present how quality will be addressed throughout their projects. The Quality Assurance Reporting Form is derived from guidelines provided in the EIEN's fiscal year 2006 grant solicitation notice. As a stipulation of their award, grant recipients are to submit the form within ninety days of grant award.

Grantees are also currently required to submit semiannual progress reports as a stipulation of their award. In these reports, grantees outline project goals, the activities required to meet these goals, and the outputs and outcomes of the activities to date. At the request of numerous grantees, we are proposing to offer the Performance Progress Reporting Form as a vehicle for collecting this information. This form is easier to complete than an unstructured narrative, and the information returned will be of higher quality.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours per Performance Progress Reporting Form and 1 hour per Quality Assurance Reporting Form response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information; process and maintain information; disclose and provide information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 225.

Frequency of response: Semi-Annual for Performance Progress Reporting Form; once for Quality Assurance Reporting Form.

Estimated total annual number of responses for each respondent: 3.

Estimated total annual burden hours: 900 hours.

Estimated total annual costs: \$0. This includes an estimated burden cost of \$0 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: March 7, 2006.

Doreen Sterling,

Acting Director, Information Exchange and Services Division.

Adequacy Status of the Truckee Meadows (Washoe County, NV) Submitted Carbon Monoxide Maintenance Plan for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy determination.

SUMMARY: In this notice, EPA is notifying the public that we have found that the motor vehicle emissions budgets contained in the submitted Redesignation Request and Maintenance Plan for the Truckee Meadows (Washoe County, Nevada) Carbon Monoxide Nonattainment Area (September 2005) ("Truckee Meadows Carbon Monoxide

Redesignation Request and Maintenance Plan") are adequate for transportation conformity purposes. As a result of our finding, the Washoe County Regional Transportation Commission and the U.S. Department of Transportation must use the carbon monoxide motor vehicle emissions budgets from the submitted plan for future conformity determinations.

DATES: This determination is effective March 30, 2006.

FOR FURTHER INFORMATION CONTACT: The finding is available at EPA's conformity Web site: <http://www.epa.gov/oms/traq>, (once there, click on the "Transportation and Air Quality Planning" link and click on the "Transportation Conformity" link, then look for "Adequacy Review of SIP Submissions for Conformity"). You may also contact Eleanor Kaplan, U.S. EPA, Region IX, Air Division AIR-2, 75 Hawthorne Street, San Francisco, CA 94105; (415) 947-4147, or kaplan.eleanor@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document, whenever "we", "us", or "our" is used, we mean EPA.

This notice announces our finding that the emissions budgets contained in the Carbon Monoxide State Implementation Plan revision for Truckee Meadows (Washoe County, Nevada) ("Truckee Meadows Carbon Monoxide Redesignation Request and Maintenance Plan") submitted by the State of Nevada on November 4, 2005, are adequate for transportation conformity purposes. EPA Region IX made this finding in a letter to the Nevada Division of Environmental Protection on February 13, 2006. We are also announcing this finding on our conformity Web site: <http://www.epa.gov/oms/traq>, (once there, click on the "Transportation and Air Quality Planning" link and click on the "Transportation Conformity" link, then look for "Adequacy Review of SIP Submissions for Conformity").

Transportation conformity is required by section 176(c) of the Clean Air Act. Our conformity rule requires that transportation plans, programs, and projects conform to state air quality implementation plans (SIPs) and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emissions
