

Rulemaking, published elsewhere in this issue of the **Federal Register**.

14. Finally, we observe that several commenters asked the Commission to reaffirm that it will not permit states to implement pooling methods that are inconsistent with the national pooling framework set forth in the Commission's rules and industry pooling guidelines. We note that the petitions specifically seek authority to order mandatory thousands-block number pooling in rate centers located outside the top 100 MSAs, but in accordance with the national pooling framework. Thus, these state commissions are not seeking to implement pooling methods that are inconsistent with the national pooling framework.
