Canned Pineapple Fruit From Thailand: Notice of Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* March 22, 2006.

FOR FURTHER INFORMATION CONTACT: Magd Zalok or Howard Smith, AD/CVD Operations, Office 4, Import Administration, International Trade

Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4162 or (202) 482-5193, respectively.

Background

On August 29, 2005, the Department of Commerce (the Department) published a notice of initiation of an administrative review of the antidumping duty order on canned pineapple fruit from Thailand, covering the period July 1, 2004, through June 30, 2005. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 70 FR 51009. The preliminary results of review are currently due no later than April 2, 2006.

Extension of Time Limit for Preliminary Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245-day time limit for the preliminary determination to a maximum of 365 days and the time limit for the final determination to 180 days (or 300 days if the Department does not extend the time limit for the preliminary determination) from the date of publication of the preliminary determination.

We determine that it is not practicable to complete the preliminary results of this review within the original time limit because the review involves examining complex cost issues. Therefore, the Department is fully extending the time limit for completion of the preliminary results until no later than July 31, 2006, which is 365 days from the last day of the anniversary month of the date of publication of the order. The deadline for the final results of this administrative review continues to be 120 days after the publication of the preliminary results.

This notice is issued and published in accordance with section 751(a)(3)(A) of the Act.

Dated: March 16, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Notice of Final Results of Antidumping Duty Changed Circumstances Reviews and Revocation of Orders In Part: Certain Corrosion-Resistant Carbon Steel Flat Products From Canada and Germany

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On February 8, 2006, the U.S. Department of Commerce (the Department) published a notice of preliminary results of changed circumstances reviews with the intent to revoke, in part, the antidumping duty orders on certain corrosion-resistant carbon steel flat products (corrosion-resistant steel) from Canada and Germany, as described below. *See Preliminary Results of Antidumping Duty Changed Circumstances Reviews And Notice of Intent to Revoke Orders in Part: Certain Corrosion-Resistant Carbon Steel Flat Products from Canada and Germany*, 71 FR 6447 (February 8, 2006) (*Preliminary Results*). In our *Preliminary Results*, the Department invited interested parties to comment on the request to exclude "wear plate" (described below) from the scope of these orders. The Department received no comments.

The Department concludes that producers accounting for substantially all of the production of the domestic like product to which these orders pertain lack interest in the relief provided by these orders with respect to wear plate because the domestic parties: 1) made an affirmative statement of no interest in the continuation of the orders with respect to that merchandise; and 2) did not comment on the *Preliminary Results*, in which the Department stated its intent to revoke the order with respect to this merchandise. Therefore, the Department concludes that it is appropriate to revoke these orders, in part, with respect to unliquidated entries of wear plate, not subject to the final results of an administrative review.

EFFECTIVE DATE: March 22, 2006.

SUPPLEMENTARY INFORMATION:

Background

The Department published the antidumping duty orders on corrosion-resistant steel from Canada and Germany on August 19, 1993. *See Notice of Antidumping Duty Order: Corrosion-Resistant Carbon Steel Flat Products from Canada*, 58 FR 44162. *See also Notice of Antidumping Duty Order: Corrosion-Resistant Carbon Steel Flat Products from Germany*, 58 FR 44170. On November 7, 2005, Eutectic Corporation (Eutectic), a U.S. importer, requested that the Department exclude a product commonly known as wear plate and marketed under the name of "CastoDur Diamond Plate" from the scope of these orders. *See Eutectic's submissions to the Secretary*, dated November 7, 2005 (Eutectic Requests).

In its requests, Eutectic asserts that certain domestic producers, *i.e.*, United States Steel Corporation (U.S. Steel) and Mittal Steel USA ISG Inc. (formerly Bethlehem Steel Corporation, Ispat Inland Steel, and LTV Steel Company, Inc.) (Mittal USA) and certain other interested parties, *i.e.*, Nucor Plate Group of Nucor Corporation and Ipsco Inc, do not have any interest in the continuation of the order with respect to certain wear plate products described below. The Department contacted U.S. Steel, Mittal USA, Nucor, and Ipsco on December 7, 2005, to confirm their expressed lack of interest regarding continuation of these orders with respect to certain wear plate products. *See Memorandum to the File from Angelica L. Mendoza, Senior Case Analyst, Office 7, "Confirmation of Interested Parties' Lack of Interest for 'Wear Plate' (marketed as 'CastoDur Diamond Plate') to Be Subject to the Above-Captioned Antidumping Duty Orders,"* dated December 7, 2005.

In response to Eutectic's request, and based on the letters from domestic producers and interested parties in these cases stating that they had no interest in retaining this product in the scope of these orders, the Department initiated these changed circumstances reviews. *See Initiation of Antidumping Duty Changed Circumstances Reviews: Certain Corrosion-Resistant Carbon Steel Flat Products from Canada and Germany*, 70 FR 76763 (December 28, 2005). The Department provided interested parties an opportunity to
