

132nd Council Meeting Agenda

Thursday, April 20, 2006, 1 p.m. Hawaii Standard Time

1. Introductions
2. Approval of Agenda
3. Limits to Fishing in the NWHI
4. Public Hearing
5. Council Discussion and Action
6. Other Business

Although non-emergency issues not contained in this agenda may come before the Council for discussion, those issues may not be the subject of formal Council action during its 132nd meeting. Council action will be restricted to those issues specifically listed in this document and any issue arising after publication of this document that requires emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kitty M. Simonds, (808) 522-8220 (voice) or (808) 522-8226 (fax), at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 3, 2006.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF DEFENSE**Office of the Secretary****Defense Science Board**

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee Meetings.

SUMMARY: The Defense Science Board 2006 Summer Study will meet in closed session on August 7-18, 2006; at the Beckman Center, Irvine, CA. At this meeting, the Defense Science Board will discuss interim findings and recommendations resulting from two ongoing Task Force activities: 21st Century Strategic Technology Vectors and Information Management for Net-Centric Operations.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology

and Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Board will develop recommendations regarding: the operational value enabled by networks and networking and their impact on innovations across the Enterprise; the underlying framework, architecture, processes and organizational structures that are in place or being pursued to deliver the power of information to the DoD enterprise as well as potential external partners; and the state of the art in knowledge utilization.

The Board will also review and develop recommendations regarding: previous attempts by DoD to identify critical technologies in order to derive lessons that would help illuminate the current challenge; identify the National Security objectives for the 21st century and the operational missions that U.S. military will be called upon to support these objectives; identify new operational capabilities needed for the proposed missions; identify the critical science technology, and other related enablers of the desired capabilities; assess current S&T investment plans' relevance to the needed operational capabilities and enablers and recommend needed changes to the plans; identify mechanisms to accelerate and assure the transition of technology into U.S. military capabilities; and review and recommend changes as needed, the current processes by which national security objectives and needed operational capabilities are used to develop and prioritize science, technology, and other related enablers, and how those enablers are then developed.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. 2), it has been determined that this meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, this meeting will be closed to the public.

FOR FURTHER INFORMATION CONTACT: Ms. Debra Rose, Executive Officer, Defense Science Board, 3140 Defense Pentagon, Room 3C553, Washington, DC 20301-3140, via e-mail at debra.rose@osd.mil, or via phone at (703) 571-0084.

Dated: March 31, 2006.

L.M. Bynum,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE**Corps of Engineers, Department of the Army**

Supplemental Notice of Intent To Prepare a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for a Permit Application for the Berths 136-147 Terminal Improvement Project, Also Known as the TraPac Container Terminal in the Port of Los Angeles, Los Angeles County, CA

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of Intent (NOI).

SUMMARY: The U.S. Army Corps of Engineers (Corps) Los Angeles District in conjunction with the Los Angeles Harbor Department (Port) is examining the feasibility of waterside, terminal and transportation improvements at Berths 136-147 in the Port of Los Angeles. The Corps is considering the Port's application for a Department of the Army permit under Clean Water Act section 404 and River and Harbor Act section 10 to conduct dredge and fill activities and construct one new wharf approximately 705 feet and seismically upgrade two wharves approximately 3,022 feet in length associated with the proposed project.

Major project elements to be covered in the Draft EIS/EIR include: wharf construction and landside improvements. The landside developments will include expansion, redevelopment and construction of marine terminal facilities, and transportation infrastructure improvements including construction of grade separations, and potential realignment of road and railways.

The primary Federal involvement is the discharge of dredge and/or fill materials within waters of the United States, work (e.g. dredging) and structures in or affecting navigable waters of the United States, and potential impacts on the human environment from such activities. Therefore, in accordance with the National Environmental Policy Act (NEPA), the Corps is requiring the preparation of an Environmental Impact Statement (EIS) prior to rendering a final decision on the Port's permit application. The Corps may ultimately make a determination to permit or deny the above project or permit or deny modified versions of the above project.

Pursuant to the California Environmental Quality Act (CEQA), the Port will serve as Lead Agency for the Preparation of an Environmental Impact
