

Ecology invite Federal agencies, State and local governments, Native American Tribes, and the public to participate in the scoping process either by providing written comments or by attending one of the public scoping meeting scheduled for April 18, 2006 at the times and locations indicated above. We have identified the following as probable major topics to be analyzed in depth in the Draft EIS: wetland and streams including fish and wildlife habitat functions, surface water quality, surface water drainage and detention effects, mitigation, and cumulative impacts. Both written and oral scoping comments will be considered in the preparation of the Draft EIS. Comments postmarked or received by e-mail after the specified date will be considered to the extent feasible.

The purpose of the scoping meeting is to assist the Corps and Ecology in defining issues, public concerns, alternatives, and the depth to which they will be evaluated in the EIS. The public scoping meeting will begin with a briefing on the proposed Pit 7 Mine Completion Project, the extent of reclamation efforts proposed as part of the project, and the preliminary EIS alternatives. Copies of the meeting handouts will be available to anyone unable to attend by contacting the Corps Seattle District as described above. Following the initial presentation, Corps representatives will answer scope-related questions and accept comments.

EIS Preparation

The Corps has not made a determination of significance as to whether an EIS is required for the proposed project. Development of the Draft EIS will begin after the close of the public scoping period. The Draft EIS is expected to be available for public review in the Fall of 2006.

Other Environmental Review and Consultations

To the fullest extent possible, the EIS will be integrated with analysis and consultation required by the Endangered Species Act of 1973, as amended (Pub. L. 93-205; 16 U.S.C. 1531 *et seq.*); the Magnuson-Stevens Fishery Conservation and Management Act, as amended (Pub. L. 94-265; 16 U.S.C. 1801, *et seq.*), the National Historic Preservation Act of 1966, as amended (Pub. L. 89-655; 16 U.S.C. 470, *et seq.*); the Fish and Wildlife Coordination Act of 1958, as amended (Pub. L. 85-624; 16 U.S.C. 742a, *et seq.* and 661-666c); and the Clean Water Act of 1977, as amended (Pub. L. 92-500; 33 U.S.C. 1251, *et seq.*); and all applicable and appropriate Executive Orders.
