II. Background

What Action is the Agency Taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the Administrator determines that emergency conditions exist which require the exemption. The Michigan Department of Agriculture has requested the Administrator to issue a specific exemption for the use of gentamicin on apples to control streptomycin-resistant fire blight. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the Applicant asserts that gentamicin is needed to control streptomycin-resistant strains of *Erwinia amylovora*, the causal pathogen of fire blight due to lack of available alternatives and effective alternative control practices. Without the use of gentamicin, the applicant states that up to 50% of the yield of susceptible apple varieties could be lost in 2006.

From a public health standpoint, gentamycin is an antibiotic used to treat infections cause by many different types of bacteria. At this time, gentamycin is not registered for use as a pesticide under FIFRA. However, the Agency, along with other public health agencies are evaluating appropriate policy approaches for materials used as both an antibiotic and a pesticide.

The Applicant proposes to make no more than three applications of a wetttable powder formulation of Agry-Gent 10-W that would be used on 26,600 acres of apples during a use season between April 1, 2006 through May 31, 2006 in the state of Michigan. If all 26,600 acres are treated, 199,500 pounds of product will be used (19,500 pounds of active ingredient).

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 of FIFRA require publication of a notice of receipt of an application for a specific exemption proposing use of a new chemical (i.e., an active ingredient) which has not been registered by EPA.

The notice provides an opportunity for public comment on the application.

The Agency, will review and consider all comments received during the comment period in determining whether to issue the specific exemption requested by the Michigan Department of Agriculture.
