

of Fluid Minerals Adjudication, at 303–239–3767.

SUPPLEMENTARY INFORMATION: The lessee has agreed to the amended lease terms for rentals and royalties at rates of \$10.00 per acre or fraction thereof, per year and 16 2/3 percent, respectively. The lessee has paid the required \$500 administrative fee and \$155 to reimburse the Department for the cost of this **Federal Register** notice. The lessee has met all the requirements for reinstatement of the lease as set out in Section 31(d) and (e) of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate lease COC64229 effective December 1, 2005, under the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Dated: April 6, 2006.

Milada Krasilnec,
Land Law Examiner.

Notice of Realty Action; Non-Competitive Land Use Authorization for Public Lands in Yuba County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action.

SUMMARY: The Operating Engineers Local Union No. 3 Joint Apprenticeship Training Committee has submitted a written proposal to the Bureau of Land Management (BLM) to utilize portions of the following described lands in Yuba County, California for the purposes of constructing and operating a training facility for heavy equipment operators:

T. 16 N., R. 5 E., Mount Diablo Meridian Sec. 27, Lots 4, 5, and 12,
S^{1/2}N^{1/2}NE^{1/4}SW^{1/4}, S^{1/2}NE^{1/4}SW^{1/4}.

The BLM has reviewed the proposal and has determined that the land would be suitable for a non-competitive land use authorization under the provisions of Section 302 of the Federal Land Policy and Management Act.

DATES: Interested parties may submit comments in writing to BLM at the address below not later than May 15, 2006.

ADDRESSES: Bureau of Land Management, Field Office Manager, Folsom Field Office, 63 Natoma Street, Folsom, CA 95630.

FOR FURTHER INFORMATION CONTACT: Jodi Lawson, Realty Specialist, at address given above, or by telephone at (916) 985–4474.

SUPPLEMENTARY INFORMATION: The proposal is to utilize 57 acres of public land for the construction and operation of an apprenticeship training center for heavy equipment operators. The training center would consist of two 2,400 square-foot stationary buildings, one for maintenance and one for equipment/vehicle washing; and five portable trailers that would serve as classrooms, a restroom, and an administrative building. The training center would require approximately 9,500 square feet of unpaved parking and unpaved roads connecting the parking area to Hammonton Road. Approximately 20 pieces of heavy equipment would be stored on-site within the unpaved parking area which would be fenced to control access and prevent unauthorized entry.

The training center would provide training opportunities in 6-week classes with 20 students at a time. Students would be trained in the use of heavy equipment in rock, sand and gravel operations. The center would also offer 2-week classes for upgrading journeyman equipment operator's skills.

BLM has assessed the proposal and determined the proposed use would be in conformance with the Sierra Planning Area Management Framework Plan, under 43 CFR 1610.8. The site is suitable for the requested land use due to past industrial mining operations that has previously severely disturbed the environment on most of the site. A non-competitive land use authorization may be employed due to the absence of any competitive interest past or present for use of the land for such a purpose.

An environmental analysis was completed in connection with the proposal. The analysis indicated the project would have positive economic impacts and no significant environmental impacts.

Yuba County, in which the area is located, is one of the more economically depressed counties in California. Nearly 21% of the county's population lives below the poverty line and per capita income is one third less than the state average. Projects with positive economic impacts are highly sought after by local government. For this reason and others, the Yuba County Board of Supervisors supports the project and has passed two resolutions indicating their support of the project.

Environmental impacts are benign due largely to the fact that the area in which heavy equipment would be

operated has previously been mined. The land was mined by large gold dredges that literally turned the landscape upside down.

On October 13, 2005 a public meeting was held in Marysville, California to discuss the project and the environmental assessment. The meeting was attended by over 120 people. Twenty-five speakers spoke in favor, one in opposition. One speaker spoke in favor but asked for minor amendments to the project specifications. Two current members of the Yuba County Board of Supervisors and one past board member made comments in favor of the project. Six written comments were provided to the BLM at the public meeting, all but one was in support. The letter of opposition was from Western Aggregates, L.L.C. a mining company with substantial interests in this area.

The 45-day public comment period on the environmental assessment yielded five public comments. One was extensive and critical of the environmental assessment. It was provided by the attorney for Western Aggregates, L.L.C. A comment letter was received from the Corps of Engineers which pointed out their omission as an agency with an interest in the area, and a letter was received from the State of California indicating compliance with California State Clearinghouse procedures. The final two comment letters were from individuals supporting the project, though one letter requested certain mitigation measures.

Following publication of this notice, and pursuant to the regulations at 43 CFR part 2920, BLM will accept for processing an application filed by the Operating Engineers Local Union No. 3 Joint Apprenticeship Training Center for a non-competitive land use authorization for the above described public land for use as proposed herein. Copies of the environmental analysis of this proposed action are available for review at the Folsom Field Office.

Comments on BLM's determination of the availability and suitability of the subject lands for the proposed use described herein and its decision to accept an application from the Operating Engineers Local Union No. 3 Joint Apprenticeship Training Committee for a non-competitive land use authorization may be submitted to the BLM at the address stated above within 30 days following publication of this notice. All comments will be evaluated by the BLM Folsom Field Office Manager prior to making a final decision on whether or not to authorize use of the property for a heavy equipment operator training area.

Dated: February 2, 2006.

J. Anthony Danna,

*Deputy State Director, Natural Resources
(CA-930).*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Colorado: Filing of Plats of Survey

April 4, 2006.

SUMMARY: The plats of survey of the following described land will be officially filed in the Colorado State Office, Bureau of Land Management, Lakewood, Colorado, effective 10 a.m., April 4, 2006. All inquiries should be sent to the Colorado State Office (CO-956), Bureau of Land Management, 2850 Youngfield Street, Lakewood, Colorado 80215-7093.

The Plat (in two sheets) and field notes, of the dependent resurvey and surveys in Township 47 North, Range 4 West, New Mexico Principal Meridian, Colorado, requested by the Bureau of Indian Affairs, in order to identify the boundary of the Ute Mountain Ute lands for management purposes, was accepted October 3, 2005.

The Supplemental Plat of Township 43 North, Range 7 West, New Mexico Principal Meridian, Colorado, creating Tract 51, in unsurveyed T. 43 N., R. 7 W., N.M.P.M., requested by the USFS, was accepted October 11, 2005.

The Supplemental Plat of Township 1 North, Range 71 West, Section 17, Sixth Principal Meridian, Colorado, which amends the erroneously numbered lot 107, as shown on the supplemental plat approved November 29, 1932, to lot 156, is based upon the supplemental plat approved November 29, 1932 and the dependent resurvey plat approved November 16, 1942, and was accepted November 1, 2005.

The Supplemental Plat of Township 43 North, Range 10 West, New Mexico Principal Meridian, Colorado, creates new lots 4 through 9, in the SW $\frac{1}{4}$ of Sec. 25. This was requested by the U.S. Forest Service, Grand Mesa, Uncompahgre and Gunnison National Forests, in a letter dated October 17, 2005, in order to facilitate a transfer of lands, with the Telluride Regional Airport Authority, and was accepted November 1, 2005.

The Plat which includes the field notes, and is the entire record of this resurvey, of the survey of Section 13, in Township 40 North, Range 13 West, New Mexico Principal Meridian, Colorado, requested by the USFS to

assist with the completion of a land exchange, was accepted December 19, 2005.

The Supplemental Plat of a portion of section 7, and the supplemental plat of a portion of section 20 in Township 1 North, Range 71 West, and the supplemental plat of a portion of section 24 in Township 1 North, Range 72 West, all of the Sixth Principal Meridian, Colorado, requested by the Canon City Field Office Land Surveyor by memorandum dated November 8, 2005, were accepted January 18, 2006.

The Plat and field notes, of the dependent resurvey and surveys in Township 48 North, Range 3 West, New Mexico Principal Meridian, Colorado, requested by the Bureau of Indian Affairs, in order to identify the boundary of Ute Mountain Ute lands for management purposes, was accepted January 25, 2006.

The Plat and field notes, of the dependent resurvey and surveys in Sec. 24, township 49 North, Range 2 West, New Mexico Principal Meridian, Colorado, requested by the Chief of Resource Stewardship and Science, Curecanti National Recreation Area, National Park Service, in order to facilitate an exchange of the sub-surface rights to a parcel of land within the Dickerson Gravel Pit, was accepted February 15, 2006.

The Plat and field notes, of the dependent resurvey and surveys in Section 4, Township 48 North, Range 4 West, New Mexico Principal Meridian, Colorado requested by a private party, through the National Park Service, by a proffer of monetary contribution dated March 25, 2005, to identify the north, south and west boundary of private Lot 11, in Section 4, T. 48 N., R. 4 W., was accepted February 21, 2006.

The Plat which includes the field notes, and is the entire record of this resurvey, in Township 35 North, Range 18 West, New Mexico Principal Meridian, Colorado, requested by the BIA through the Ute Mountain Tribe, to identify lost corners and post boundaries of Ute Mountain Ute lands, was accepted March 16, 2006.

The Plat, and field notes, of the dependent resurvey in Section 9, Township 11 South, Range 70 West, Sixth Principal Meridian, Colorado requested by the Land Surveyor, Pike and San Isabel National Forests, in order to identify National Forest boundaries for a proposed timber sale in conjunction with the Hayman Fire Rehabilitation Project, was accepted March 17, 2006.

The Plat, and field notes of the metes-and-bounds survey in Township 5 South, Range 74 East, Sixth Principal

Meridian, Colorado requested by the USFS, in a memorandum dated February 8, 2000, in conjunction with the City of Denver, Mountain Parks and Recreation Division, in order to facilitate the location of the boundaries of both agencies intermingled boundaries, and to further facilitate a land transaction between the two agencies, was accepted March 24, 2006.

Randall M. Zanon,

Chief Cadastral Surveyor for Colorado.
