Washington: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: During a review of Washington's regulations, EPA identified a variety of State-initiated changes to Washington's hazardous waste program under the Resource Conservation and Recovery Act, as amended, (RCRA) for which the State had not previously sought authorization. EPA proposes to authorize the State for the program changes. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the revisions by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we receive written comments that oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we receive comments that oppose this authorization, EPA will publish a document in the **Federal Register** withdrawing the immediate final rule before it takes effect. EPA will then address public comments in a later final rule based on this proposal. If we receive comments that oppose only the authorization of a particular change to the State hazardous waste program, we will withdraw that part of the

immediate final rule. However, the authorization of program changes that are not opposed by any comments will become effective on the date established in the immediate final rule. A **Federal Register** withdrawal document will specify which part of the authorization will become effective and which part is being withdrawn. EPA may not provide further opportunity for comment. Any parties interested in commenting on this action must do so at this time. EPA is also proposing to make corrections to the table included in the authorization **Federal Register** document for Washington published on October 12, 1999.

DATES: Send your written comments by May 15, 2006.

ADDRESSES: Submit your comments, identified by EPA-R10-RCRA-2006-0087 by one of the following methods:

1. Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

Oregon: Proposed Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Oregon has applied to EPA for final authorization of certain changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA has reviewed Oregon's application, has preliminarily determined that these changes satisfy all requirements needed to qualify for final authorization, and is proposing to authorize the state's changes.

DATES: Comments on this proposed rule must be received in writing by May 15, 2006.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R10-RCRA-2006-0064, by one of the following methods:

- www.regulations.gov: Follow the on-line instructions for submitting comments.
- E-mail: hunt.jeff@epa.gov.
- Mail: Jeff Hunt, U.S. Environmental Protection Agency Region 10, Office of Air, Waste & Toxics (AWT-122) 1200 Sixth Avenue, Seattle, WA 98101.

Instructions: Direct your comments to Docket ID No. EPA-R10-RCRA-2006-0064. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. SUPPLEMENTARY INFORMATION:

A. Why Are Revisions to State Programs Necessary?

States which have received final authorization from EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the federal program. As the Federal program changes, states must change their programs and ask EPA to authorize the changes. Changes to state programs may be necessary when Federal or state statutory or regulatory authority is modified or when certain other changes occur. Most commonly, states must

change their programs because of changes to EPA's regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 266, 268, 270, 273 and 279.

B. What Decisions Have We Made in This Rule?

EPA has preliminarily determined that Oregon's application to revise its authorized program meets all of the statutory and regulatory requirements established by RCRA. Therefore, we are proposing to grant Oregon final authorization to operate its hazardous waste program with the changes described in the authorization application. Oregon will have responsibility for permitting Treatment, Storage, and Disposal Facilities (TSDFs) within its borders (except in Indian country (18 U.S.C. 1151) and for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the Hazardous and Solid Waste Amendments of 1984 (HSWA). New federal requirements and prohibitions imposed by federal regulations that EPA promulgates under the authority of HSWA take effect in authorized states before the states are authorized for the requirements. Thus, EPA will implement those requirements and prohibitions in Oregon, including issuing permits, until the State is granted authorization to do so.

C. What Will Be the Effect If Oregon Is Authorized for These Changes?

If Oregon is authorized for these changes, a facility in Oregon subject to RCRA will have to comply with the authorized State requirements in lieu of the corresponding Federal requirements in order to comply with RCRA. Additionally, such persons will have to comply with any applicable federally-issued requirements, such as, for example, HSWA regulations issued by EPA for which the State has not received authorization, and RCRA requirements that are not supplanted by authorized State-issued requirements. Oregon continues to have enforcement responsibilities under its state hazardous waste management program for violations of its program, but EPA continues to have enforcement authority under RCRA sections 3007, 3008, 3013, and 7003, which includes, among others, the authority to:

- Perform inspections; require monitoring, tests, analyses or reports;
- Enforce RCRA requirements; suspend or revoke permits; and
- Take enforcement actions regardless of whether Oregon has taken its own actions.
