

filing" link. The Commission strongly encourages electronic filing.

s. Filing and Service of Responsive Documents: Any filings must bear in all capital letters the title "COMMENTS", "COMPETING APPLICATION", "RECOMMENDATIONS FOR TERMS AND CONDITIONS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

t. Agency Comments: Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Magalie R. Salas,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF06-23-000]

Gulf South Pipeline Company, LP; Notice of Site Visit for the Proposed Mississippi Expansion Project

April 13, 2006.

The Gulf South Pipeline Company (Gulf South) is proposing to construct approximately 88 miles of 42-inch-diameter pipeline and a new 39,990 horsepower compression station in Madison Parish, Louisiana, and Warren, Hinds, Copiah and Simpson Counties, Mississippi.

On April 25 and 26, 2006, staff from the Office of Energy Projects (OEP) as part of its Pre-Filing Review will visit the proposed pipeline route and potential compression station sites and will attend open house meetings sponsored by the applicant to answer questions about the Pre-Filing Review process. All interested parties are welcome to attend the site visits and

open houses. Those wishing to attend the site visits must provide their own transportation. The schedule for the site visits and open houses is as follows:

Tuesday, April 25th

Site Visit: Meet at 8 a.m. (CST). Eagle Ridge Conference Center Parking Lot, 1500 Raymond Lake Road, Raymond, MS 39154. 601-857-7100.

Open House: 5 p.m.-6:30 p.m. (CST). Eagle Ridge Conference Center, Talon Room, 1500 Raymond Lake Road, Raymond, MS 39154. 601-857-7100.

Wednesday, April 26th

Site Visit: Meet at 8 a.m. (CST). Tallulah Country Club Parking Lot, 762 Old Highway 65 South, Tallulah, LA 71282. 318-574-4173.

Open House: 5 p.m.-6:30 p.m. (CST). Tallulah Country Club, 762 Old Highway 65 South, Tallulah, LA 71282. 318-574-4173.

These events are posted on the Commission's calendar located on the internet at <http://www.ferc.gov/EventCalendar/EventsList.aspx>. For additional information regarding these events, please contact the Commission's Office of External Affairs at 202-502-8004.

Federal Energy Regulatory Commission

[Docket No. AD06-4-000]

Resource Reports 11 and 13 Guidance; Notice of Technical Conference

April 13, 2006.

On Tuesday, May 9, 2006, the staff of the Office of Energy Projects of the Federal Energy Regulatory Commission (FERC or Commission) will convene a technical conference to discuss the engineering and safety information required in applications for liquefied natural gas (LNG) facilities. Filings that are complete expedite staff detailed review to ensure that all areas of the proposed design are safe and reliable. The technical conference will convene at 10 a.m. (EST) at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in Conference Room 3M-02.

On December 15, 2005, the Commission issued Draft Guidance for Filing Resource Reports 11 & 13 for LNG Facility Applications to assist

applicants by identifying the specific information and level of detail required for filing these resource reports as specified by Title 18 of the Code of Federal Regulations, Sections 380.12 (m) and (o). This document addresses recent initiatives, as well as several requests for specific guidance, including:

- The level of detail, including a requirement for a hazard design review, necessary for the front-end engineering design submitted to the FERC;
- Critical energy infrastructure information (CEII) classification;
- LNG spill containment sizing and design criteria for impoundments, sumps, sub-dikes, troughs or trenches;
- Design spills to be used in the calculation of thermal and flammable vapor exclusion zones;
- Waterway suitability assessments required by the U.S. Coast Guard's Navigation and Inspection Circular 05-05; and
- Compliance with the Energy Policy Act of 2005.

The technical conference will allow the public and the engineering community the opportunity to provide comments on the required information for Resource Report 11: Reliability and Safety, and Resource Report 13: Engineering and Design Material for LNG facility applications. In addition, the conference will solicit comments on our Draft Preferred Submittal Format Guidance for better organizing the engineering information in Resource Report 13. This document is available on the Commission Web site at <http://www.ferc.gov/docs-filing/elibrary.asp> under Docket No. AD06-4 or by accessing the following link: http://elibrary.ferc.gov/0/idmws/file_list.asp?document_id=4394249. Information related to specific projects before the Commission will not be discussed.

The conference is open to the public. Pre-registration is required and may be submitted either online at <http://www.ferc.gov/whats-new/registration/cryo-conf-form.asp> or by faxing a copy of the form (found at the referenced online link) to 202-208-0353.

FERC conference and meetings are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an e-mail to accessibility@ferc.gov or call toll free (866) 20803372 (voice) or 202-502-8659 (TTY), or send a fax to 202-208-2106 with the required accommodations.

For information about this conference, please contact Chris Zerby 202-502-

6111, Kareem Monib 202-502-6265, or Ghanshyam Patel 202-502-6431.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8160-7]

Recent Posting to the Applicability Determination Index (ADI) Database System of Agency Applicability Determinations, Alternative Monitoring Decisions, and Regulatory Interpretations Pertaining to Standards of Performance for New Stationary Sources, National Emission Standards for Hazardous Air Pollutants, and the Stratospheric Ozone Protection Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces applicability determinations, alternative monitoring decisions, and regulatory interpretations that EPA has made under the New Source Performance Standards (NSPS); the National Emission Standards for Hazardous Air Pollutants (NESHAP); and the Stratospheric Ozone Protection Program.

FOR FURTHER INFORMATION CONTACT: An electronic copy of each complete document posted on the Applicability Determination Index (ADI) database system is available on the Internet through the Office of Enforcement and Compliance Assurance (OECA) Web site at <http://www.epa.gov/compliance/monitoring/programs/caa/adi.html>. The document may be located by date, author, subpart, or subject search. For questions about the ADI or this notice, contact Maria Malave at EPA by phone

at: (202) 564-7027, or by e-mail at: malave.maria@epa.gov. For technical questions about the individual applicability determinations or monitoring decisions, refer to the contact person identified in the individual documents, or in the absence of a contact person, refer to the author of the document.

SUPPLEMENTARY INFORMATION:

Background

The General Provisions to the NSPS in 40 CFR part 60 and the NESHAP in 40 CFR part 61 provide that a source owner or operator may request a determination of whether certain intended actions constitute the commencement of construction, reconstruction, or modification. EPA's written responses to these inquiries are broadly termed applicability determinations. See 40 CFR 60.5 and 61.06. Although part 63 NESHAP and section 111(d) of the Clean Air Act regulations contain no specific regulatory provision that sources may request applicability determinations, EPA does respond to written inquiries regarding applicability for the part 63 and section 111(d) programs. The NSPS and NESHAP also allow sources to seek permission to use monitoring or recordkeeping which are different from the promulgated requirements. See 40 CFR 60.13(i), 61.14(g), 63.8(b)(1), 63.8(f), and 63.10(f). EPA's written responses to these inquiries are broadly termed alternative monitoring decisions. Furthermore, EPA responds to written inquiries about the broad range of NSPS and NESHAP regulatory requirements as they pertain to a whole source category. These inquiries may pertain, for example, to the type of sources to which the regulation applies, or to the testing, monitoring, recordkeeping or reporting requirements contained in the regulation. EPA's written responses to these inquiries are broadly termed regulatory interpretations.

EPA currently compiles EPA-issued NSPS and NESHAP applicability determinations, alternative monitoring decisions, and regulatory interpretations, and posts them on the Applicability Determination Index (ADI) on a quarterly basis. In addition, the ADI contains EPA-issued responses to requests pursuant to the stratospheric ozone regulations, contained in 40 CFR part 82. The ADI is an electronic index on the Internet with more than one thousand EPA letters and memoranda pertaining to the applicability, monitoring, recordkeeping, and reporting requirements of the NSPS and NESHAP. The letters and memoranda may be searched by date, office of issuance, subpart, citation, and control number or by string word searches.

Today's notice comprises a summary of 95 such documents added to the ADI on February 28, 2006. The subject, author, recipient, date and header of each letter and memorandum are listed in this notice, as well as a brief abstract of the letter or memorandum. Complete copies of these documents may be obtained from the ADI through the OECA Web site at: <http://www.epa.gov/compliance/monitoring/programs/caa/adi.html>.

Summary of Headers and Abstracts

The following table identifies the database control number for each document posted on the ADI database system on February 28, 2006; the applicable category; the subpart(s) of 40 CFR part 60, 61, or 63 (as applicable) covered by the document; and the title of the document, which provides a brief description of the subject matter. We have also included an abstract of each document identified with its control number after the table. These abstracts are provided solely to alert the public to possible items of interest and are not intended as substitutes for the full text of the documents.

ADI DETERMINATIONS UPLOADED ON FEBRUARY 24, 2006

Control	Category	Subpart	Title
A050001	Asbestos	M	Demolition of Residential Trailer Homes.
M050030	MACT	A, EEE	Stack Test Waiver for a Portland Cement Plant Kiln.
M050036	MACT	G	Alternative Monitoring of Orthoxylene Unit.
M050037	MACT	G	Waiver of Additional Performance Testing.
M050038	MACT	U	Alternative Reporting Period.
M050039	MACT	A	Waiver of Flare Performance Testing.
M050040	MACT	CC, G	Alternative Reporting Period.
M050041	MACT	CC	Alternative Reporting Period.
M050042	MACT	S	Alternative Test Method for Pulp and Paper Mill.
M050043	MACT	S, VVV	Cluster Rule Compliance Plan.
M050044	MACT	PPP, FFFF	Primary Product Determination for Production Vessels.
M050045	MACT	S	Cluster Rule Compliance Plan.
M050046	MACT	KK, QQQQ	Finishing of Architectural Elements.
