#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Commodity Flow Survey, a component of the Economic Census, is the only comprehensive source of multi-modal, system-wide data on the volume and pattern of goods movement in the United States. These data are used by government transportation analysts at the Federal, state and local levels to estimate the future demand for transportation services and facilities; assess the adequacy of our current transportation infrastructure to accommodate the future demand; and to evaluate the economic, social and environmental impacts of transportation flows. The data also are used extensively by academics, researchers, economic planning organizations, and the business community.

The Commodity Flow Survey is co-sponsored by the Bureau of Transportation Statistics, Research and Innovative Technology Administration, U.S. Department of Transportation. The survey provides data on the movement of commodities in the United States from their origin to destination. The survey produces summary statistics on value, tons, ton-miles, average miles per shipment, commodity shipped, and modes of transportation used. The Census Bureau will publish shipment characteristics at the national, census regions and divisions, state, and Metropolitan Areas levels. Reports are also planned for estimates of hazardous material shipments and exports.

Primary strategies for reducing respondent burden in the Commodity Flow Survey include employing a stratified random sample of business establishments, requesting data on a limited sample of shipment records from each establishment, and accepting estimates.

##### II. Method of Collection

The Commodity Flow Survey will survey a sample of business establishments in mining, manufacturing, wholesale, and selected retail industries. The survey also covers auxiliary establishments of multi-establishment companies, which have non-auxiliary establishments that are in-scope to the CFS or classified in retail trade. Each selected establishment will receive, by mail, four questionnaires—one during each quarter of 2007. On

each form an establishment will be asked to report data for an average of 25 shipments selected during a designated one-week reporting period. Upon request by the respondent electronic reporting options will be made available.

#### Oil Country Tubular Goods From Japan: Notice of Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce

**EFFECTIVE DATE:** April 26, 2006.

**FOR FURTHER INFORMATION CONTACT:** Jun Jack Zhao or Mark Hoadley, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1396 or (202) 482-3148, respectively.

#### SUPPLEMENTARY INFORMATION:

##### Background

On August 31, 2005, the Department of Commerce (the Department) received a timely request for an administrative review of the antidumping duty order on oil country tubular goods (OCTG) from Japan, with respect to JFE Steel Corporation, Nippon Steel Corporation, NKK Tubes, and Sumitomo Metal Industries, Ltd. On September 28, 2005, the Department published a notice of initiation of this administrative review for the period of August 1, 2004, through July 31, 2005. See Notice of Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part, 70 FR 56631 (September 28, 2005). The preliminary results of this administrative review are currently due no later than May 3, 2006.

##### Extension of Time Limit for Preliminary Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), the Department shall issue preliminary results in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it is not practicable to complete the review within the foregoing time period.

In this administrative review, the Department finds that additional time is required to collect the necessary information to corroborate the statements of two respondents who reported that they did not have any

shipments of the subject merchandise during the period of review. Following our normal practice, the Department has requested detailed entry information from U.S. Customs and Border Protection (CBP). We have also asked both respondents to answer questions concerning their shipments during the period of review. After we receive all of the necessary information from the respondents and CBP, the Department will need time to analyze it and reach a decision. For these reasons, the Department has determined that it is not practicable to complete the preliminary results of this review within the original time period. Consequently, we are extending the time for the completion of the preliminary results of this review until no later than June 19, 2006, which is 290 days from the last day of the anniversary month of the date of publication of the order.

This notice is published in accordance to sections 751 and 777(i)(1) of the Act.

Dated: April 21, 2006.

At the request of various parties, the Department of Commerce (the Department) initiated an administrative review of the antidumping duty order on polyethylene retail carrier bags from Thailand for the period January 26, 2004, through July 31, 2005. See *Initiation of Antidumping and*

*Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 70 FR 56631 (September 28, 2005). Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue preliminary results of review within 245 days after the last day of the anniversary month of an order for which a review is requested and final results within 120 days after the date on which the preliminary results were published. If it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days after the last day of the anniversary month.

This review involves seven respondents. We received below-cost allegations after receipt of questionnaire responses and are currently conducting below-cost investigations for several of these respondents. Further, we have granted requests for extensions to the deadline for responding to our initial and supplemental questionnaires by all seven of the respondents. Due to the number of respondents in this review and the time we need to analyze and incorporate the information from recently filed submissions, we are extending the deadline for issuing the preliminary results of this review by 90 days until August 1, 2006.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On December 22, 2005, the Department published the preliminary results of its administrative review of the antidumping duty order on porcelain-on-steel cooking ware from the PRC. See *Preliminary Results*. The administrative review covers one exporter, Shanghai Watex Metal Co., Ltd. ("Watex"), and its exports of the subject merchandise to the United States during the period December 1, 2003, through November 30, 2004.

We invited parties to comment on our *Preliminary Results*. On January 17, 2006, we received a case brief from Watex. On January 19, 2006, we received petitioner's, Columbian Home Products, LCC ("Columbian"), request for removal of Watex's untimely new factual information from the record. On January 20, 2006, we sent respondent Watex a letter rejecting its previous case brief because it contained untimely new factual information. See Memorandum to the File From Scot Fullerton: *Porcelain-on-Steel Cooking Ware from the People's Republic of China: Revision of Watex Case Brief*, dated January 24, 2006. On January 24, 2006, the Department received the redacted version of Watex's case brief which no longer included the new factual information. See *Porcelain-on-Steel Cooking Ware from the People's Republic of China: Shanghai Watex Metal Products Co. Ltd.'s Revised Case Brief*, dated January 24, 2006 ("Watex Case Brief"). On January 25, 2006, we received petitioner's rebuttal brief. See *Pocelain-on-Steel Cooking Ware from the People's Republic of China: Petitioner's Rebuttal Brief*, dated January 25, 2006 ("Petitioner's Rebuttal Brief").
