Petitions for Exemption

Docket No.: FAA–2006–24500.

Petitioner: Raytheon Missile Systems/Advanced Programs.

Section of 14 CFR Affected: 4 CFR 45.23(b), 91.9(b)(2), and 91.203(a) and (b).

Description of Relief Sought: The exemption, if granted, would permit Raytheon to use 1" lettering for the word "Experimental" on its unmanned aircraft because of the limited space available to display the designation. It would also permit Raytheon to keep the aircraft flight manual, the airworthiness certificate, and the U.S. registration certificate in the Ground Control Station, rather than in the aircraft. Since there is no pilot on the aircraft, the documents are best available to the pilot in the Ground Control Station.
