#### Partial Rescission of Antidumping Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from Thailand

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** In response to a request by United States Steel Corporation (petitioner) and Nucor Corporation (Nucor), a domestic interested party, the U.S. Department of Commerce (the Department) initiated an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand with respect to Sahaviriya Steel Industries Public Company Limited (SSI) and Nakornthai Strip Mill Public Co., Ltd. (NSM).<sup>1</sup> No other interested party requested a review with respect to SSI. The period of review is November 1, 2004, through October 31, 2005. On March 22, 2006, petitioner and Nucor withdrew their request for an administrative review of SSI. Accordingly, the Department is now rescinding the administrative review of SSI, while continuing the review with respect to NSM.

**EFFECTIVE DATE:** April 28, 2006.

**FOR FURTHER INFORMATION CONTACT:** Stephen Bailey, AD/CVD Operations, Office 7, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0193.

#### SUPPLEMENTARY INFORMATION:

##### Background

On November 29, 2001, the Department published the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand. *See Antidumping Duty Order: Certain Hot-Rolled Carbon Steel Flat Products from Thailand*, 66 FR 59562 (November 29, 2001).

On November 1, 2005, the Department published in the **Federal Register** a notice of opportunity to request an administrative review of the

antidumping duty order covering certain hot-rolled carbon steel flat products from Thailand. *See Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 70 FR 65883 (November 1, 2005). On November 30, 2005, the Department received a timely request from petitioner and Nucor for an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand with respect to SSI. On December 22, 2005, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), the Department published a notice of initiation of the administrative review of SSI, covering the period November 1, 2004, through October 31, 2005. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 70 FR 76024 (December 22, 2005).

On January 3, 2006, the Department released the antidumping duty questionnaire to SSI. On March 22, 2006, petitioner and Nucor withdrew their request in a timely manner for an administrative review of SSI. No other party had requested a review of SSI.

#### Rescission of the Administrative Review

Pursuant to the Department's regulations, the Department will rescind an administrative review "if a party that requested a review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review." *See* 19 CFR 351.213(d)(1). Because petitioner and Nucor withdrew their request for an administrative review for SSI on March 22, 2006, which is within the 90-day deadline, and no other party requested a review of SSI, the Department is rescinding this administrative review with respect to SSI in accordance with 19 CFR 351.213(d)(1). The administrative review with respect to NSM will continue. The Department will issue appropriate assessment instructions to U.S. Customs and Border Protection within 15 days of publication of this notice.

#### Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification

of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

The Department is issuing and publishing this notice in accordance with section 777(i) of the Act and 19 CFR 351.213(d)(4).

Dated: April 21, 2006.

#### Correction:

On April 6, 2006, the Department of Commerce ("The Department") published a notice of extension of time limit for the final results of the antidumping administrative review of the order on certain malleable iron pipe fittings from the People's Republic of China for the period December 2, 2003, through November 30, 2004. *See Notice of Extension of Time Limit for Final Results of Antidumping Duty Administrative Review: Certain Malleable Iron Pipe Fittings From the People's Republic of China*, 71 FR 17439 (April 6, 2006) ("*Extension Notice*"). #### **Tapered Roller Bearings and Parts Thereof, Finished or Unfinished, from the People's Republic of China: Extension of Time Limit for the Preliminary Results of Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** April 28, 2006.

**FOR FURTHER INFORMATION CONTACT:**

Ryan Radford or Eugene Degnan, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-4037 or (202) 482-0414, respectively.

**SUPPLEMENTARY INFORMATION:**

#### **Background**

On July 21, 2005, the Department of Commerce ("the Department") published in the *Federal Register* a notice of the initiation of the antidumping duty administrative review of tapered roller bearings ("TRBs") from the People's Republic of China ("PRC") for the period June 1, 2004, through May 31, 2005. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 70 FR 42028 ("Initiation Notice").

#### **Extension of Time Limit for Preliminary Results**

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue preliminary results within 245 days after the last day of the anniversary month of an order. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time period to a maximum of 365 days. On February 28, 2006, the Department published in the *Federal Register* a notice extending the time limit for the preliminary results of the administrative review from March

2, 2006, to May 1, 2006. See *Extension of Time Limit for the Preliminary Results of Antidumping Duty Administrative Review: Tapered Roller Bearings, and Parts Thereof, Finished or Unfinished from the People's Republic of China* 71 FR 10010 (February 28, 2006). The preliminary results of review are currently due no later than May 1, 2006. However, completion of the preliminary results of this review by May 1, 2006, is not practicable because the Department needs additional time to verify the respondent's constructed export price sales in the United States, and its export price sales and factors of production in the PRC.

Because it is not practicable to complete this review within the time specified under the Act, we are extending the time period for issuing the preliminary results of review by an additional 60 days until June 30, 2006, in accordance with section 751(a)(3)(A) of the Act. The final results continue to be due 120 days after the publication of the preliminary results of review.

This notice is published pursuant to sections 751(a) and 777 (i) of the Act.

Dated: April 24, 2006.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

Authorized under the Magnuson-Stevens Act, participants are required to purchase, install, and operate a National Marine Fisheries Service (NMFS)-approved vessel monitoring system (VMS) under certain circumstances, to provide more precise location information in the Bering Sea, Aleutian Islands, and Gulf of Alaska. This information supports enforcement efforts in relation to: (1) A number of fisheries, including: Atka mackerel, pollock, Pacific cod, BSAI crab; (2) essential fish habitat; and (3) habitat areas of particular concern in the Aleutian Islands and Gulf of Alaska. VMS requirements are described at 50 CFR part 679.28. The VMS transmitter automatically determines the vessels position several times per hour using Global Positioning System (GPS) satellite. A communications service provider receives the transmission and relays it to NMFS. The VMS transmitters are designed to be tamper-resistant and automatic. In most cases, the vessel owner is unaware of exactly when the unit is transmitting and is unable to alter the signal or the time of transmission.

##### **II. Method of Collection**

VMS check-in, by FAX, is required from participants upon installation of a VMS on a vessel. Thereafter, submittal is automatic by satellite.

##### **III. Data**
