FEDERAL RESERVE SYSTEM**Federal Open Market Committee; Domestic Policy Directive of March 27 and 28, 2006**

In accordance with § 271.25 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on March 27 and 28, 2006.¹

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. To further its long-run objectives, the Committee in the immediate future seeks conditions in reserve markets consistent with increasing the federal funds rate to an average of around 4 3/4 percent.

The vote encompassed approval of the paragraph below for inclusion in the statement to be released shortly after the meeting:

“The Committee judges that some further policy firming may be needed to keep the risks to the attainment of both sustainable economic growth and price stability roughly in balance. In any event, the Committee will respond to changes in economic prospects as needed to foster these objectives.”
