

chemical, radiological, and biological stressors and mixtures. Depending upon their specific disciplinary expertise, nominees will be considered for appointment to the chartered SAB, and the SAB Ecological Processes and Effects Committee.

(d) *Risk Mitigation and Control*—Specialized expertise in civil, chemical, environmental, or systems engineering for the protection of public health and the environment through sustainable and green approaches, environmental management systems, pollution prevention, waste reduction and reuse, and containment or control technologies for environmental stressors in all environmental media (e.g., air, land, water). Depending upon their specific disciplinary expertise, nominees will be considered for appointment to the chartered SAB and the SAB Environmental Engineering Committee.

(g) *Environmental Economics Assessments*—Specialized expertise in cost-benefit analysis, uncertainty analysis, energy sector and electricity generation, modeling (e.g., emissions fate and transport, emissions trading, economy-environment interactions), application of quantitative methods to environmental policy (e.g., benefit-cost assessment, valuation, cost effective analysis, computable general equilibrium modeling), market mechanisms and incentives, or political economy of policy instrument choices. Depending upon their specific disciplinary expertise, nominees will be considered for appointment to the chartered Council, chartered SAB, and the SAB Environmental Economics Advisory Committee.

(f) *Behavioral and Decision Sciences Assessments*—Specialized expertise in risk communication, and analytical deliberative, collaborative, and predictive approaches to environmental decision-making. Depending upon their specific disciplinary expertise, nominees will be considered for appointment to the chartered Council and the chartered SAB.

How To Submit Nominations

Any interested person or organization may nominate qualified persons to be considered for appointment to these chartered advisory committees and SAB standing committees. Individuals may self-nominate. Qualified nominees will demonstrate appropriate scientific education, training, and experience to evaluate basic and applied science issues addressed by these advisory committees. Successful nominees will have distinguished themselves professionally and be available to invest the time and effort in providing advice

and recommendations on the development and application of science at EPA. Nominations should be submitted in electronic format (which is preferred over hard copy) through the Form for Nomination to Chartered Advisory Committees or SAB Subcommittees provided on the SAB Web site. The form can be accessed through the SAB Nomination Form link on the blue navigational bar on the SAB Web site at: <http://www.epa.gov/sab>. To be considered, all nominations should include the information requested on that form.

Nominators are asked to identify the specific committee or committees for which nominees would like to be considered. The nominating form requests contact information about: The person making the nomination; contact information about the nominee; the disciplinary and specific areas of expertise of the nominee; the nominee's curriculum vita; and a biographical sketch of the nominee indicating current position, educational background; research activities; and recent service on other national advisory committees or national professional organizations. Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB Web site, should contact Ms. Patricia L. Thomas as indicated above in this notice. Non-electronic submissions must follow the same format and contain the same information as the electronic form. The SAB Staff Office will acknowledge receipt of nominations.

Candidates will be asked to submit the "Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency" (EPA Form 3110-48). This confidential form allows EPA to determine whether there is a statutory conflict between that person's public responsibilities as a Special Government Employee and private interests and activities, or the appearance of a lack of impartiality, as defined by Federal regulation. The form may be viewed and downloaded at the SAB Web site at: <http://www.epa.gov/sab/pdf/epaform3110-48.pdf>. This form should not be submitted as part of a nomination.

The SAB Staff Office seeks candidates who possess the necessary domains of knowledge, and relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation) to adequately address scientific issues facing the Agency. The primary criteria to be used in evaluating potential nominees will be

scientific and/or technical expertise, knowledge, and experience. Additional criteria that will be used to evaluate technically qualified nominees will include: The absence of financial conflicts of interest; scientific credibility and impartiality; availability and willingness to serve; and the ability to work constructively and effectively on committees. The selection of new members will also include consideration of the collective breadth and depth of scientific perspectives; a balance of scientific perspectives; continuity of knowledge and understanding of EPA missions and environmental programs, and diversity factors (e.g., geographical areas and professional affiliations) for each of the chartered committees, SAB subcommittees.

II. Contractor Requirements

Under these contract numbers, the contractor will perform the following:

- Under Contract No. GS-10F-0452M, enter data for DMR-QA Studies 25 and 26.
 - Perform data entry analysis of DMR-QA Study 25 trends, provide suggestions and editorial comments to improve instructions and format of the DMR-QA notice, and
 - Enter data of Laboratory inspections and data audits conducted by the Laboratory Data Integrity Branch.
- This contract involves no subcontractors.

The OPP has determined that the contracts described in this document involve work that is being conducted in connection with FIFRA, since pesticide chemicals will be the subject of certain evaluations to be made under this contract. These evaluations may be used in subsequent regulatory decisions under FIFRA.

Some of this information may be entitled to confidential treatment. The information has been submitted to EPA under sections 3, 4, 6, and 7 of FIFRA and under sections 408 and 409 of FFDCFA.

In accordance with the requirements of 40 CFR 2.307(h)(3), the contracts with Geologics, prohibits use of the information for any purpose not specified in these contracts; prohibits disclosure of the information to a third party without prior written approval from the Agency; and requires that each official and employee of the contractor sign an agreement to protect the information from unauthorized release and to handle it in accordance with the *FIFRA Information Security Manual*. In addition, Geologics is required to submit for EPA approval a security plan under which any CBI will be secured and protected against unauthorized release or compromise. No information will be provided to Geologics until the requirements in this document have been fully satisfied. Records of information provided to Geologics will be maintained by EPA Project Officers for these contracts. All information supplied to Geologics by EPA for use in connection with these contracts will be returned to EPA when Geologics has completed its work.

Amitraz; Product Cancellation Order

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations voluntarily requested by the registrant and accepted by the Agency, of products containing the pesticide amitraz, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a March 17, 2004 **Federal Register** Notice of Receipt of Requests from the amitraz registrant to voluntarily cancel all uses of its Ovasyn Insecticide/Miticide and Mitac W Insecticide product registrations. These are not the last amitraz products registered for use in the United States, but are the last amitraz products for the use sites of cotton and pears. In the March 17, 2004 Notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30 day comment period that would merit its further review of these requests, or unless the registrant withdrew its requests within this period. The Agency received no comments regarding the cancellation of Ovasyn Insecticide/Miticide and Mitac W Insecticide. Further, the registrant did not withdraw its requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the amitraz products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective May 3, 2006.
