SUPPLEMENTARY INFORMATION:

I. Abstract

The Office of Management and Budget
(OMB) regulations at 5 CFR part 1320,
which implement the Paperwork
Reduction Act of 1995 (Pub. L. 104-13),
require that interested members of the
public and affected agencies have an
opportunity to comment on information
collection and recordkeeping activities
(see 5 CFR 1320.8(d)). This notice
identifies an information collection
activity that the Office of Hearings and
Appeals has submitted to OMB for
extension or re-approval.

On November 17, 2005, the
Departments of Agriculture, Interior,
and Commerce published regulations at
7 CFR part 1, 43 CFR part 45, and 50
CFR part 221, to implement section 241
of the Energy Policy Act of 2005
(EPAAct), Public Law 109-58, which the
President signed into law on August 8,
2005. Section 241 of the EPAAct adds a
new section 33 to the Federal Power Act
(FPA) that allows the license applicant
or any other party to the license
proceeding to propose an alternative to
a condition or prescription that one or
more of the Departments develop for
inclusion in a hydropower license
issued by the Federal Energy Regulatory
Commission (FERC) under the FPA.
This provision requires that the
Departments of Agriculture, Interior and
Commerce collect the information
covered by 1094-0001.

The Secretary of the Department
involved must accept the proposed
alternative if the Secretary determines,
based on substantial evidence provided
by a party to the license proceeding or
otherwise available to the Secretary, (a)
that the alternative condition provides
for the adequate protection and
utilization of the reservation, or that the
alternative prescription will be no less
protective than the fishway initially
proposed by the Secretary, and (b) that
the alternative will either cost
significantly less to implement or result
in improved operation of the project
works for electricity production.

In order to make this determination,
the regulations require that all of the
following information be collected: (1)
A description of the alternative, in an

equivalent level of detail to the bureau's
preliminary condition or prescription;
(2) an explanation of how the
alternative: (i) If a condition, will
provide for the adequate protection and
utilization of the reservation; or (ii) if a
prescription, will be no less protective
than the fishway prescribed by the
bureau; (3) an explanation of how the
alternative, as compared to the
preliminary condition or prescription,
will: (i) Cost significantly less to
implement; or (ii) result in improved
operation of the project works for
electricity production; (4) an
explanation of how the alternative or
revised alternative will affect: (i) Energy
supply, distribution, cost, and use; (ii)
flood control; (iii) navigation; (iv) water
supply; (v) air quality; and (vi) other
aspects of environmental quality; and
(5) specific citations to any scientific
studies, literature, and other
documented information relied on to
support the proposal.

This notice of proposed information
collection is being published by the
Office of Hearings and Appeals,
Department of the Interior, on behalf of
all three Departments, and the data
provided below covers anticipated
responses (alternative conditions/
prescriptions and associated
information) for all three Departments.

II. Data

(1) *Title:* 7 CFR Part 1; 43 CFR Part 45;
50 CFR Part 221; the Alternatives
Process in Hydropower Licensing.

150 hours.

Total number of estimated responses:
250.

Total annual reporting: 37,500 hours.

(3) *Description of the need and use of
the information:* The purpose of this
information collection is to provide an
opportunity for license parties to
propose an alternative condition or
prescription to that imposed by the
Federal Government in the hydropower
licensing process.

III. Request for Comments

The Departments invite comments on:

(a) Whether the collection of
information is necessary for the proper

performance of the functions of the agencies, including whether the information will have practical utility;

(b) The accuracy of the agencies' estimate of the burden of the collection and the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Dated: April 27, 2006.

Geological Survey

Bird Banding Laboratory Advisory Committee

AGENCY: U.S. Geological Survey.

ACTION: Notice of meeting.

SUMMARY: The third meeting of the Advisory Committee on the Bird Banding Laboratory (Committee) will take place June 13 and 14, 2006, at the Western Regional Office for Ducks Unlimited, 3074 Gold Canal Drive, Rancho Cordova, California 95670-6116. The meeting runs from 8:30 a.m. to 4:30 p.m. each day. The purpose of the Advisory Committee, which is co-chaired by the USGS and the U.S. Fish

and Wildlife Service, is to represent the interests of the bird banding community, including both game and non-game birds, in advising the U.S. Department of the Interior, USGS, on current and future management of the Bird Banding Laboratory. The agenda for this meeting will focus on a full Committee review of the results of the work done since the last meeting by the writing subgroup. The subgroup was charged with developing draft one-page position papers on the following topics: (1) Bird banding permits; (2) data collection and storage; (3) data dissemination; (4) partnerships; and overarching issues. Subsequent to the review discussion, the Committee will finalize statements for each issue and begin developing recommendations for action.

The meeting is open to all members of the interested public, and time on the agenda has been reserved at the conclusion of each day's work for the Committee to receive verbal comments (limited to 5 minutes per person) from the public. To speak before the Committee, please register in advance with Mr. Daniel James (see contact information below), the USGS Designated Federal Official (DFO) for the Committee.

FOR FURTHER INFORMATION CONTACT: Daniel L. James, 12201 Sunrise Valley Drive, MS 301, Reston, Virginia 20192; 703-648-4253, e-mail: dan_james@usgs.gov.

Dated: April 27, 2006.
