SUPPLEMENTARY INFORMATION:

I. Abstract

The Office of Management and Budget
(OMB) regulations at 5 CFR part 1320,
which implement the Paperwork
Reduction Act of 1995 (Pub. L. 104-13),
require that interested members of the
public and affected agencies have an
opportunity to comment on information
collection and recordkeeping activities
(see 5 CFR 1320.8(d)). This notice
identifies an information collection
activity that the Office of Hearings and
Appeals has submitted to OMB for
extension or re-approval.

On November 17, 2005, the
Departments of Agriculture, Interior,
and Commerce published regulations at
7 CFR part 1, 43 CFR part 45, and 50
CFR part 221, to implement section 241
of the Energy Policy Act of 2005
(EPAAct), Public Law 109-58, which the
President signed into law on August 8,
2005. Section 241 of the EPAAct adds a
new section 33 to the Federal Power Act
(FPA) that allows the license applicant
or any other party to the license
proceeding to propose an alternative to
a condition or prescription that one or
more of the Departments develop for
inclusion in a hydropower license
issued by the Federal Energy Regulatory
Commission (FERC) under the FPA.
This provision requires that the
Departments of Agriculture, Interior and
Commerce collect the information
covered by 1094-0001.

The Secretary of the Department
involved must accept the proposed
alternative if the Secretary determines,
based on substantial evidence provided
by a party to the license proceeding or
otherwise available to the Secretary, (a)
that the alternative condition provides
for the adequate protection and
utilization of the reservation, or that the
alternative prescription will be no less
protective than the fishway initially
proposed by the Secretary, and (b) that
the alternative will either cost
significantly less to implement or result
in improved operation of the project
works for electricity production.

In order to make this determination,
the regulations require that all of the
following information be collected: (1)
A description of the alternative, in an

equivalent level of detail to the bureau's
preliminary condition or prescription;
(2) an explanation of how the
alternative: (i) If a condition, will
provide for the adequate protection and
utilization of the reservation; or (ii) if a
prescription, will be no less protective
than the fishway prescribed by the
bureau; (3) an explanation of how the
alternative, as compared to the
preliminary condition or prescription,
will: (i) Cost significantly less to
implement; or (ii) result in improved
operation of the project works for
electricity production; (4) an
explanation of how the alternative or
revised alternative will affect: (i) Energy
supply, distribution, cost, and use; (ii)
flood control; (iii) navigation; (iv) water
supply; (v) air quality; and (vi) other
aspects of environmental quality; and
(5) specific citations to any scientific
studies, literature, and other
documented information relied on to
support the proposal.

This notice of proposed information
collection is being published by the
Office of Hearings and Appeals,
Department of the Interior, on behalf of
all three Departments, and the data
provided below covers anticipated
responses (alternative conditions/
prescriptions and associated
information) for all three Departments.
