

# Rules and Regulations

Federal Register

Vol. 71, No. 86

Thursday, May 4, 2006

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

#### 7 CFR Part 56

[Docket No. PY-98-006]

RIN 0581-AC50

#### Eligibility Requirements for USDA Graded Shell Eggs

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Final rule; correction.

**SUMMARY:** The Agricultural Marketing Service published in the **Federal Register** on April 19, 2006, a document regarding Voluntary Shell Egg Grading regulations. The final rule provides that shell eggs must not have been previously shipped for retail sale in order to be officially identified with a USDA consumer grademark and changes the definition of the term *eggs of current production* from 30 days to 21 days, thereby making eggs that were laid more than 21 days before the date packing ineligible to be officially identified with a USDA-consumer grademark. In that document, a number appearing in one of the columns in Table 1 was typed incorrectly. This document corrects that error.

**DATES:** Effective on May 4, 2006.

**FOR FURTHER INFORMATION CONTACT:** Charles L. Johnson, Chief, Grading Branch, (202) 720-3271.

**SUPPLEMENTARY INFORMATION:** The Agricultural Marketing Service published a document in the **Federal Register** on April 19, 2006 (71 FR 20288) amending regulations pertaining to Voluntary Grading of Shell Eggs. In that document, FR Doc. 06-3693, the number appearing in the Estimated value, Total value column should read 899,100, not 899,10. Therefore, in the **Federal Register** dated April 19, 2006, (71 FR 20288), in Table 1, under the

heading Estimated value, in the Total value column "899,10" is corrected to read "899,100".

Dated: April 28, 2006.

**Lloyd C. Day,**

*Administrator, Agricultural Marketing Service.*

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### 14 CFR Part 25

[Docket No. NM345, Special Conditions No. 25-317-SC]

#### Special Conditions: Sabreliner Model NA-265-60; High Intensity Radiated Fields (HIRF)

**AGENCY:** Federal Aviation Administration (FAA) DOT.

**ACTION:** Final special conditions; request for comments.

**SUMMARY:** These special conditions are issued for Sabreliner Model NA-265-60 airplanes. These airplanes will have novel and unusual design features when compared to the state of technology envisioned in the airworthiness standards for transport category airplanes. The modification incorporates the installation of dual Honeywell Model AM-250 digital altimeters. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for the protection of these systems from the effects of high-intensity radiated fields (HIRF). These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that provided by the existing airworthiness standards. **DATES:** The effective date of these special conditions is April 14, 2006. We must receive your comments by June 5, 2006.

**ADDRESSES:** You must mail two copies of your comments to: Federal Aviation Administration, Transport Airplane Directorate, Attn: Rules Docket (ANM-113), Docket No. NM345, 1601 Lind Avenue, SW., Renton, Washington, 98055-4056. You may deliver two copies to the Transport Airplane Directorate at the above address. You

must mark your comments: Docket No. NM345. You can inspect comments in the Rules Docket weekdays, except Federal holidays, between 7:30 a.m. and 4 p.m.

**FOR FURTHER INFORMATION CONTACT:** Greg Dunn, FAA, Airplane and Flight Crew Interface Branch, ANM-111, Transport Airplane Directorate, Aircraft Certification Service, 1601 Lind Avenue, SW., Renton, Washington, 98055-4056; telephone (425) 227-2799; facsimile (425) 227-1320.

#### SUPPLEMENTARY INFORMATION:

##### Comments Invited

The FAA has determined that notice and opportunity for prior public comment are impracticable, because these procedures would significantly delay certification of the airplane and thus delivery of the affected aircraft. In addition, the substance of these special conditions has been subject to the public comment process in several prior instances with no substantive comments received. The FAA, therefore, finds that good cause exists for making these special conditions effective upon issuance; however, we invite interested people to take part in this rulemaking by sending written comments, data, or views. The most helpful comments reference a specific portion of the special conditions, explain the reason for any recommended change, and include supporting data. We ask that you send us two copies of written comments.

We will file in the docket all comments we receive as well as a report summarizing each substantive public contact with FAA personnel concerning these special conditions. You may inspect the docket before and after the comment closing date. If you wish to review the docket in person, go to the address in the **ADDRESSES** section of this preamble between 7:30 a.m., and 4:00 p.m., Monday through Friday, except Federal holidays.

We will consider all comments we receive on or before the closing date for comments. We will consider comments filed late if it is possible to do so without incurring expense or delay. We may change these special conditions, based on the comments we receive.

If you want the FAA to acknowledge receipt of your comments on these special conditions, include with your comments a pre-addressed, stamped
