On April 6, 1999, the Department of Energy (DOE) issued Order No. EA–200 authorizing each of AEPSC's five generation-owning public utility members individually to transmit electric energy from the United States to Canada. Order No. EA–200 authorized Appalachian Power Company (APC), Columbus Southern Power Company (CSPC), Indiana Michigan Power Company (IMPC), Kentucky Power Company (KPC) and Ohio Power Company (OPC) individually to export electric energy from the United States to Canada for a two-year term. On May 22, 2001, in Order No. EA–200–A, DOE renewed that authorization for a five-year term and added Central Power & Light Company, Public Service Company of Oklahoma (PSCO), Southwestern Electric Power Company (SEPC) and West Texas Utilities Company to the list of AEPSC's member companies authorized to export electric energy to Canada.

On April 20, 2006, AEPSC filed an application with DOE on behalf of only seven of its current public utility affiliates (APC, CSPC, IMPC, KPC, OPC, PSCO, and SEPC) for renewal of the export authority contained in Order No. EA–200–A for an additional five-year term. The electric energy that each company proposes to export electric to Canada would be either surplus to its own needs or purchased on the wholesale market. Each company authorized to export would individually arrange for the delivery of those exports over the international transmission facilities presently owned by Basin Electric Power Cooperative, Bonneville Power Administration, Eastern Maine Electric Cooperative, International
