Submission for OMB Review; Comment Request

May 4, 2006.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: A Study of Modernization of the Food Stamp Program in Florida.

OMB Control Number: 0584-NEW.

Summary of Collection: Congress has allocated funds for the purpose of evaluating and collecting data on the Food Stamp Program (FSP) as part of section 17(a)(1) of the Food Stamp Act of 1977, as amended through Public Law 106-171, February 11, 2000. The authorizing legislation states that "the Secretary may, by way of making contracts with or grants to public or private organizations or agencies, undertake research that will help improve the administration and effectiveness of the food stamp program in delivering nutrition-relating benefits." The Study of Modernization of the Food Stamp Program in Florida has been approved under the FY 2006 research funds authorized by the Congress. The Food and Nutrition Service (FNS) is funding a case study of ACCESS Florida to assess whether these changes can be transferred to other states, and to examine how these changes might affect clients. The study will look at outcomes associated with ACCESS Florida and document the process of modernizing the FSP in Florida.

Need and Use of the Information: This case study will identify all the components of ACCESS Florida and investigate the types of impact these changes may have on program access and costs. By collecting detailed information from staff and clients, the case study can explore each change's individual impact. Primary data collection activities will include: (1) In-person interviews with district and local DCF officials, community partners, and call center staff, along with observations of program operations in three DCF districts; (2) Telephone interviews with district and local office staff and with community partners in six districts; (3) Four discussion groups with FSP applicants, participants, and eligible non-participants in each of the three districts where in-person interviews are conducted; (4) Reviews of administrative data from state and federal sources to identify potential FSP performance impacts. Not conducting this data collection would significantly impede the USDA's ability to understand how ACCESS Florida is affecting participant access, program costs and errors in benefit determination.

Description of Respondents: State, local, or tribal government; Individual or households; Not for-profit institutions.

Number of Respondents: 247.

Frequency of Responses: Report: other (one collection).

Total Burden Hours: 332.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Submission for OMB Review; Comment Request

May 4, 2006.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Rural Utilities Service

Title: Telecommunications System Construction Policies and Procedures.

OMB Control Number: 0572-0059.

Summary of Collection: The Rural Electrification Act of 1936 (RE Act), 7 U.S.C. 901 *et seq.*, was amended in 2002 by Title IV, Rural Broadband Access, by Farm Security and Rural Investment Act, which authorizes Rural Utilities Service (RUS) to provide loans and loan guarantees to fund the cost of construction, improvement, or acquisition for facilities and equipment for the provision of broadband service in eligible rural communities in the States and territories of the United States. Title VI of the RE Act requires that loans are granted only to borrowers who demonstrated that they will be able to repay in full within the time agreed. RUS has established certain standards and specification for materials, equipment and construction to assure that standards are maintained; loans are not adversely affected, and loans are used for intended purposes.

Need and Use of the Information: RUS has developed specific forms for borrowers to use when entering into contracts for goods or services. The information collected is used to implement certain provisions of loan documents about the borrower's purchase of materials and equipment and the construction of its broadband system and is provided on an as needed basis or when the individual borrower undertakes certain projects. The standardization of the forms has resulted in substantial savings to borrowers by reducing preparation of the documentation and the costly review by the government.

Description of Respondents: Business or other for-profit; Not-for-profit institutions.

Number of Respondents: 255.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 3,147.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2005-0085]

Content of Bilateral Workplans

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: This notice is intended to provide background information about, and solicit public comments on, the use of bilateral workplans by the Animal and Plant Health Inspection Service's Plant Protection and Quarantine program. Bilateral workplans are agreements between Plant Protection and Quarantine, officials of the national plant protection organizations of foreign governments, and, when necessary, foreign commercial entities that specify in detail the phytosanitary measures that will comply with our regulations governing the import or export of a specific commodity.

DATES: We will consider all comments that we receive on or before July 10, 2006.

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov> and, in the "Search for Open Regulations" box, select "Animal and Plant Health Inspection Service" from the agency drop-down menu, then click on "Submit." In the Docket ID column, select APHIS-2005-0085 to submit or view public comments and to view supporting and related materials available electronically. Information on using Regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site's "User Tips" link.

- Postal Mail/Commercial Delivery: Please send four copies of your comment (an original and three copies) to Docket No. APHIS-2005-0085, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2005-0085.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: Mr. Nancy G. Klag, Program Director, International Standards, Phytosanitary Issues Management Team, PPQ, APHIS,

4700 River Road Unit 140, Riverdale, MD 20737-1236; (301) 734-6799.

SUPPLEMENTARY INFORMATION:

Background

The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is responsible for protecting the health of U.S. agriculture. As part of this responsibility, APHIS' Plant Protection and Quarantine (PPQ) program, the national plant protection organization (NPPO) of the United States, regulates the importation, exportation, and interstate movement of plants, plant products, biological control organisms, noxious weeds, and articles that could harbor plant pests or noxious weeds to prevent the introduction into or the dissemination within the United States of plant pests or noxious weeds.

This notice is intended to provide background about, and solicit public comments on, PPQ's use of bilateral workplans. A bilateral workplan is an agreement between PPQ, officials of the NPPO of a foreign government, and, when necessary, foreign commercial entities that specifies in detail the phytosanitary measures that will comply with our regulations governing the import or export of a specific commodity. Bilateral workplans apply only to the signatory parties and establish detailed procedures and guidance for the day-to-day operations of specific import/export programs. Bilateral workplans also establish how specific phytosanitary issues are dealt with in the exporting country and make clear who is responsible for dealing with those issues. The content of bilateral workplans is described in detail later in this document.

Need for Bilateral Workplans

PPQ enters into bilateral workplans to implement both U.S. import and export programs. There is no universal rule for when a bilateral workplan is needed. A workplan may be requested by PPQ, by a foreign cooperator, or by U.S. importers or exporters. Typically, when importing a commodity that involves specific inspections, treatments, or mitigations to be conducted or applied in a foreign country, a bilateral workplan is executed between the importing and exporting countries. A bilateral workplan is usually not required when an import is authorized entry into the United States subject only to general requirements, such as inspection and/or treatment upon arrival in the United States. Bilateral workplans for U.S. exports may be required as a condition of importation or at the request of the importing
