Approval and Promulgation of Air Quality Implementation Plans; West Virginia; Redesignation of the City of Weirton PM-10 Nonattainment Area to Attainment and Approval of the Maintenance Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On May 24, 2004, the State of West Virginia submitted a request that EPA redesignate the Weirton nonattainment area (Weirton Area) to attainment for the national ambient air quality standards (NAAQS) for particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM-10), and concurrently requested approval of a limited maintenance plan (LMP) as a revision to the West Virginia State Implementation Plan (SIP). In this action, the EPA proposes to approve the LMP for the Weirton Area in West Virginia and grant the State's request to redesignate the area from nonattainment to attainment. EPA's proposed approval is based on its determination that the area has met the criteria for redesignation for attainment specified in the Clean Air Act (CAA). EPA is also proposing to determine that, because the Weirton Area has continued to attain the PM-10 NAAQS, certain attainment demonstration requirements, along with other related requirements of the CAA, are not applicable to the Weirton Area.
