BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroad has petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

Docket Number FRA–2006–24529

Applicant: CSX Transportation, Incorporated, Mr. C.M. King, Chief Engineer, Communications and Signals, 500 Water Street, SC J–350, Jacksonville, Florida 32202.

CSX Transportation, Incorporated (CSXT) seeks approval of the proposed modification of the traffic control system on the two main tracks, near milepost BE 22.60, in Cincinnati, Ohio, on the Cincinnati Terminal Subdivision, Louisville Division. The proposed changes consist of the discontinuance and removal of three electric locks from independently operated derails “M” and “N,” and inside crossover switch “G.” The proposed changes are associated with the installation of shunt and break type circuits to open the signal control circuits when the derails are not in the derailing position, or if the inside switch is not in the normal position.

The reason given for the proposed changes is that the modification will allow these switch locations to comply with present CSXT standards for independently operated derails and the inside switch of a crossover between a main track and a yard track.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and include a concise statement of the interest of the party in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL–401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590–0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the internet at the docket facility’s Web site at <http://dms.dot.gov>.

FRA wishes to inform all potential commenters that anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT’s complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477–78) or you may visit <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Issued in Washington, DC on May 9, 2006.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

Pursuant to Title 49 Code of Federal Regulations (CFR) part 235 and 49 U.S.C. 20502(a), the following railroad has petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR part 236 as detailed below.

Docket No. FRA–2006–24530

Applicant: CSX Transportation, Incorporated, Mr. C. M. King, Chief Engineer, Communications and Signals, 500 Water Street, SC J–350, Jacksonville, Florida 32202.

CSX Transportation, Incorporated seeks approval of the proposed modification of the traffic control system on the single main track, at South Gillespie, South Carolina, milepost S280.20, on the Hamlet Subdivision, Florence Division. The proposed changes consist of the conversion of the power-operated switch to hand operation, and the discontinuance and removal controlled signal RB94.

The reason given for the proposed changes is that current operation at this location, no longer warrants the retention of a power-operated switch.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and include a concise statement of the interest of the party in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.
