

resolution to resolve hurricane structure. The essential physics includes full representation of clouds and a much improved representation of the exchanges of heat, moisture, and momentum at the atmosphere-ocean surface. Development of these representations will require extensive analysis of data from carefully planned field studies using both traditional airborne and ground-based observing systems and novel observing platforms such as Unmanned Aerial Vehicles.

The SAB is chartered under the Federal Advisory Committee Act and is the only Federal Advisory Committee with the responsibility to advise the Under Secretary on long- and short-term strategies for research, education, and application of science to resource management and environmental assessment and prediction.

NOAA welcomes all comments on the content of the preliminary report. We also request comments on any inconsistencies perceived within the report, and possible omissions of important topics or issues. This preliminary report is being issued for comment only and is not intended for interim use. For any shortcoming noted within the preliminary report, please propose specific remedies. Suggested changes will be incorporated where appropriate, and a final report will be posted on the SAB Web site.

Please follow these instructions for preparing and submitting comments. Using the format guidance described below will facilitate the processing of comments and assure that all comments are appropriately considered. Please provide background information about yourself on the first page of your comments: Your name(s), organization(s), area(s) of expertise, mailing address(es), telephone and fax numbers, e-mail address(es).

Overview comments on the section should follow your background information and should be numbered. Comments that are specific to particular pages, paragraphs or lines of the section should follow any overview comments and should identify the page numbers to which they apply.
