

Guard and NMFS agreed this PARS would be narrower in scope than a routine PARS because the Coast Guard did not consider economic impacts. Economic impacts are being considered by NMFS as part of an economic analysis it is conducting as part of the implementation of its Strategy. The Coast Guard analyzed ship transit data and reviewed research papers published and/or provided by NMFS. These papers discussed right whale habitat and migration patterns, and also analyzed ship transit data, including Mandatory Ship Reporting System data. Comments received on its PARS announcement in the **Federal Register** as well as comments NMFS received on its ANPRM were also reviewed by the Coast Guard.

### Study Recommendations

The PARS recommendations include the following:

1. Establish precautionary areas at the entrance to the ports of Jacksonville and Fernandina Beach, FL, and Brunswick, GA.

2. Establish six, two-way routes for the ports of Jacksonville and Fernandina Beach, FL, and Brunswick, GA.

3. Establish precautionary areas at the entrance to Cape Cod Canal and in the vicinity of New Inlet, MA.

4. Establish three, two-way routes in Cape Cod Bay to the ports of Boston and Provincetown, MA, and the entrance to Cape Cod Canal.

5. Establish a two-way recommended track from the Cape Cod Canal entrance to Provincetown, MA.

6. Realign and modify the location and size of the western portion of the TSS "In the Approach to Boston, Massachusetts."

### Next Steps

A brief synopsis of how the PARS recommendations will proceed towards implementation follows:

1. Changes to the TSS will be implemented through submission of a proposal by the United States to the International Maritime Organization (IMO). Upon IMO approval, adoption, and implementation, NOAA charts will be revised to reflect changes to the TSS and the Coast Guard will revise the list of TSSs at 33 CFR part 167.

2. The final locations of the precautionary areas, two-way routes, and the two-way recommended track will be determined and approved by the Coast Guard and NOAA. After approval they will be placed on the appropriate charts by NOAA. Notification of the establishment of these routing measures and their placement on applicable

charts will be published in the appropriate Local Notice to Mariners.

3. Changes to aids to navigation resulting from the above actions will be accomplished through the following established procedures—notification of proposed changes in the Local Notice to Mariners with an opportunity for comment and notification of the final changes in the Local Notice to Mariners.

### Conclusion

We appreciate the comments we received concerning the PARS. We will provide opportunity for additional comments on any recommended changes to existing routing or operational measures listed in 33 CFR part 167 through notices published in the **Federal Register**.

**Direct Final Rule.** A direct final rule identical to this proposal is published in the Rules and Regulations section of today's **Federal Register**. For further supplementary information, the detailed rationale for the proposal and the regulatory revisions, see the direct final rule.

We are taking direct final action because we view the amendments as noncontroversial and anticipate no adverse comments. We have explained

our reasons for the amendments in the preamble to the direct final rule. If we receive no adverse comments, we will take no further action on the proposed rule. If we receive adverse comments, we will withdraw only the amendments, sections or paragraphs of the direct final rule on which we received adverse comments. We will publish a timely withdrawal in the **Federal Register** indicating which will become effective and which are being withdrawn. If part or all of the direct final rule in the Rules and Regulations section of today's **Federal Register** is withdrawn, all comments pertaining to those provisions will be addressed in a subsequent final rule based on the proposed rule. We will not institute a second comment period on today's proposed rule. Any parties interested in commenting must do so at this time.

#### Statutory and Executive Order Reviews

For a complete discussion of all of the administrative requirements applicable to this action, see the direct final rule in the Rules and Regulations section of today's **Federal Register**.

#### Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For purposes of assessing the impact of today's proposed rule amendments on small entities, a small entity is defined as: (1) A small business ranging from 500 to 1,000 employees as defined by the Small Business Administration's size standards; (2) a small governmental jurisdiction that is a government or a city, county, town, school district or special district with a population of less than 50,000; and (3) a small organization that is any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.

After considering the economic impacts of today's proposed rule amendments on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities.

We conducted an assessment of the impact of the May 30, 1996 final rule on small businesses within the industries affected by that rule. This analysis

allowed us to conclude that there would not be a significant economic impact on a substantial number of small entities from the implementation of that rule. There is nothing contained in the proposed rule amendments that will impose an economic impact on small businesses in any way not considered in the analysis of the May 30, 1996 final rule; this means that the proposed rule amendments have no incremental economic impact on small businesses beyond what was already examined in the final rule. We continue to be interested in the potential impacts of the proposed rule amendments on small entities and welcome comments on issues related to such impacts.

### National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of intent for partial deletion of the Rocky Mountain Arsenal National Priorities List Site from the National Priorities List; extension of public comment period.

**SUMMARY:** The Environmental Protection Agency (EPA) Region 8 announced its intent to delete the Internal Parcel, encompassing 7,399 acres of the Rocky Mountain Arsenal National Priorities List Site (RMA/NPL Site) On-Post Operable Unit (OU), from the National Priorities List (NPL) on April 26, 2006. The 30-day public comment period is scheduled to end on May 26, 2006. EPA has received a request to extend the public comment period. In response, EPA is extending the public comment period for an additional 30 days concluding on June 26, 2006.

The NPL constitutes Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of
