

rest on the shoreline or the adjoining ocean bottom.

(6) *Non-commercial Organized Group Special Recreation Permits*: A special recreation permit is required for all organized groups accessing the management area. (Authority: 43 CFR 2932.11(b)(2) and (3) (i–iii)).

Sec. 3 Penalties

Any person who violates any of these supplementary rules may be tried before a United States Magistrate and fined no more than \$1,000 or imprisoned for no more than 12 months, or both. 43 U.S.C. 1733(a); 43 CFR 8360.0–7; 43 CFR 2932.57(b). Such violations may also be subject to the enhanced fines provided for by 18 U.S.C. 3571. You may also be subject to civil action for unauthorized use of the public lands for violations of special recreation permit terms, conditions, or stipulations, or for uses beyond those allowed by the permit, 43 CFR 2932.57(b)(2).

J. Anthony Danne,
Acting State Director.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[INT–FES–06–09]

Platte River Recovery Implementation Program

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the final environmental impact statement.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969 (as amended), the Bureau of Reclamation (Reclamation) and the U.S. Fish and Wildlife Service (Service) as joint lead agencies have prepared a final programmatic environmental impact statement (FEIS) for the Platte River Recovery Implementation Program (Program). This FEIS also serves as the Biological Assessment necessary for consultation under section 7 of the Endangered Species Act (ESA). In 1997, the States of Nebraska, Wyoming, and Colorado and the U.S. Department of the

Interior (Interior) signed a *Cooperative Agreement for Platte River Research and Other Efforts Relating to Endangered Species Habitats Along the Central Platte River, Nebraska (Cooperative Agreement)*. In this document, the signatories agreed to pursue a basinwide, cooperative approach to improve and maintain habitat for four threatened and endangered species which use the Platte River in Nebraska: whooping crane (*Grus americana*), interior least tern (*Sterna antillarum*), piping plover (*Charadrius melanotos*), and pallid sturgeon (*Scaphirhynchus albus*). This Program will provide ESA compliance for Service and Reclamation water projects in the Platte River Basin for the four target species, as well as for other participating projects which require Federal permits.

DATES: Interior will not make a decision on the proposed action until at least 30 days after release of the Final EIS. After the 30-day waiting period, a Record of Decision (ROD) will be completed. The ROD will state the action that will be implemented and will discuss all factors leading to the decision.

ADDRESSES: Written comments on, or requests for copies of, the FEIS should be addressed to Platte River EIS Office (PL–100), PO Box 25007, Denver, Colorado, 80225–0007; telephone: (303) 445–2096, or by sending an e-mail request to platte@prs.usbr.gov. The document is available on the Internet at <http://www.platteriver.org>. Copies of the FEIS are also available for public inspection at the locations listed under the Supplementary Information section.

FOR FURTHER INFORMATION CONTACT: Joy Knipps, Platte River EIS Office at the above address, or by telephone at (303) 445–2108, or e-mail at jknipps@prs.usbr.gov.

SUPPLEMENTARY INFORMATION:

Reclamation and the Service have prepared this FEIS to analyze the impacts of the First Increment (13 years) of the proposed Program, developed jointly by the States of Nebraska, Wyoming, and Colorado, water users, environmental organizations and the Department, to benefit the target species and their habitat in the Platte River Basin and to provide compliance with the ESA for certain historic and future water uses in each State. The habitat objectives of the proposed Program include: improving flows in the Central Platte River through water re-regulation and conservation/supply projects; and protecting, restoring, and maintaining at least 10,000 acres of habitat in and along the Central Platte River area between Lexington and Chapman, Nebraska.
