**ACTION:** Notice.

This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed collection: Overpayment Recovery Questionnaire (OWCP-20). **DATES:** Written comments must be submitted to the office listed in the addresses section below on or before July 24, 2006.

**SUPPLEMENTARY INFORMATION:**

## I. Background

The Federal Coal Mine Health and Safety Act of 1969, as amended, 30 U.S.C. 923(b) and 20 CFR 725.544 (c), the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended, 42 U.S.C. 7385j-2 and 20 CFR 30.510 through 30.520, and the Federal Employees' Compensation Act, 5 U.S.C. 8129(b) and 20 CFR 10.430-10.441, provide for the recovery or waiver of overpayments of benefits to beneficiaries. The OWCP-20 is used by OWCP examiners to ascertain the financial condition of the beneficiary who has been overpaid to determine the present and potential income and assets available for collection proceedings. The questionnaire also provides a means for the beneficiary to explain why he/she is not at fault for the overpayment. If this information were not collected, Black Lung, EEOICPA and FECA would have little basis to decide on collection proceedings. This information collection is currently approved for use through November 30, 2006.

## II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

## III. Current Actions

The Department of Labor seeks approval for the extension of this information collection in order to carry out its responsibility under the law to resolve overpayments under the Acts.
