Approval and Promulgation of Air Quality Implementation Plans; Ohio: Carbon Monoxide Maintenance Plan Updates; Limited Maintenance Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve an October 20, 2005, request from Ohio for a State Implementation Plan (SIP) revision of the Cuyahoga County carbon monoxide (CO) maintenance plan. The CO maintenance plan revision is an update to the current approved maintenance plan and continues to demonstrate maintenance of the CO National Ambient Air Quality Standard (NAAQS) for an additional 10 years. The maintenance plan revision is submitted as a limited maintenance plan for the Cuyahoga County, Ohio carbon monoxide area. This submittal is to meet a requirement under the Clean Air Act.

DATES: Comments must be received on or before July 3, 2006.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.

Approval and Promulgation of Air Quality Implementation Plans; Ohio; Proposal To Approve Revision to Ohio State Implementation Plan To Rescind Oxides of Nitrogen Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Ohio State Implementation Plan (SIP) to rescind a rule which originally affected stationary combustion sources located within Priority I regions of the State and, new sources regardless of location. The rule revision we are proposing to approve also applies to nitric acid manufacture. EPA is proposing to approve this rule rescission because we agree with Ohio that the rescinded rule is no longer the limiting regulation for any oxides of nitrogen (NO_x) emission units in the State. The rule was originally approved over 30 years ago and has been superseded by a number of State regulations and Federal Regulations of equivalent or more stringent nature. The Ohio NO_x SIP Call rules and Federal emissions standards for utility and industrial units all have greater potential for reducing emissions of NO_x and improving human health than does the State's rescinded rule. Rescinding this rule removes any confusion in the affected community over which rule applies to NO_x sources in Ohio. EPA believes that an approval of this rule revision request would have no adverse effect on air quality.
