

City states that it is working with the BNSF Railway Company to establish a 24-hour quiet zone, that certain improvements have already been made to the benefit of safety, and that all necessary improvements will be completed by September 22, 2006. The City seeks to retain the current nighttime quiet zone in order to avoid disruption and confusion during the period permanent arrangements are being completed and states that safety will not be compromised.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. Each comment shall set forth specifically the basis upon which it is made, and contain a concise statement of the interest of the commenter in the proceeding. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA within 15 days of the date of publication of this notice, in writing, and specify the basis for their request.

All communications concerning these proceedings should identify the docket number set forth above and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 30 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. FRA reserves the right to grant temporary relief to avoid lapse of the existing partial quiet zone while the comment period is open, after consideration of any comments filed prior to the initial date of decision. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are available for inspection and copying on the Internet at the docket facility's Web site: <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Gettysburg & Northern Railroad Company

[Waiver Petition Docket Number FRA–2005–23489]

The Gettysburg & Northern Railroad Company (GNRR) seeks a waiver of compliance from certain provisions of the Safety Glazing Standards, 49 CFR 223.11, that requires certified glazing for one locomotive. The GNRR is located in Peoria, IL, and operates over 25.5 miles of track at a speed not exceeding 15 miles per hour. The terrain is mostly rural with light residential and commercial surroundings. This locomotive is used primarily in passenger service during the summer excursion season. During the off season, this locomotive is stored inside a diesel shop.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number 2005–23489) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL–401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will

be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. Hoosier Valley Railroad Museum

[Docket Number FRA–2006–24647]

The Hoosier Valley Railroad Museum (HVRM) seeks a permanent waiver of compliance from *Control of Alcohol and Drug Use*, 49 CFR Part 219 Subparts D through J, which require a railroad to conduct reasonable suspicion alcohol and/or drug testing, pre-employment drug testing, random alcohol and drug testing, and to have voluntary referral and co-worker report policies, and which also specify drug and alcohol testing procedures and record-keeping requirements. HVRM has less than 16 hours of service employees, and while

it is not currently part of the general railroad system of transportation, it will begin operation of tourist trains on five to ten miles of the 33 miles of track owned by the Incorporated Town of North Judson, Indiana between North Judson and LaCrosse, IN. The Chesapeake & Indiana Railroad (CKIN) conducts freight operations on 23 miles of this 33-mile rail line; however, the only common track use would be a wye track in LaCrosse. HVRM's tourist train operations would normally be conducted on weekends and would not operate at the same time as the CKIN freight trains.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. Northeast Illinois Regional Commuter Railroad Corporation

[Waiver Petition Docket Number FRA-2006-24562]

The Northeast Illinois Regional Commuter Railroad Corporation (Metra), further identified herein as the railroad, seeks approval for a waiver of compliance with the requirements of the *Passenger Equipment Safety Standards* contained in 49 CFR 238.309(b)(3), *Periodic brake equipment maintenance*, which requires that brake equipment receive periodic maintenance at 736 days. Metra requests an extension of the time period to 1840 days for 26 new bi-level electric passenger MU's.

The twenty-six new electric MU locomotives for which the relief is being requested are being built by Sumitomo Corporation of America/Nippon Sharyo and the air brake system is provided by Knorr Brake Corporation in Westminster, Maryland. The railroad explains that the brake application is transmitted electronically to each MU's Friction Brake Control Unit (FBCU). The FBCU then provides the requested brake application without drawing down brake pipe pressure. An Emergency Magnetic Valve (EMV) is provided on each MU for an electronic emergency brake application.
