VIII. Tips for Writing a Strong Application

Include DUNS Number. You must include a Data Universal Numbering System (DUNS) Number to have your application reviewed. To obtain a DUNS number, access <http://www.dunandbradstreet.com> or call 1–866–705–5711. Please include the DUNS number next to the Office of Management and Budget (OMB) Approval Number on the application face page.

Keep your audience in mind. Reviewers will use only the information contained in the application to assess the application. Be sure the application and responses to the program requirements and expectations are complete and clearly written. Do not assume reviewers are familiar with the applicant organization. Keep the review criteria in mind when writing the application.

Start preparing the application early. Allow plenty of time to gather required information from various sources.

Follow the instructions in this guidance carefully. Place all information in the order requested in the guidance. If you do not put the information in the requested order, you may receive a lower score.

Be brief, concise, and clear. Make your points understandable. Provide accurate and honest information, including candid accounts of problems and realistic plans to address them. If you omit any required information or data, explain why. Make sure the information provided in each table, chart, attachment, etc., is consistent with the proposal narrative and information in other tables.

Be organized and logical. Many applications receive a low score because the reviewers cannot follow the thought process of the applicant, or because parts of the application do not fit together.

Be careful in the use of appendices. Do not use the appendices for information required in the body of the application. Be sure to cross-reference all tables and attachments located in the appendices to the appropriate text in the application.

Carefully proofread the application. Misspellings and grammatical errors will impede reviewers' understanding of the application. Be sure pages are numbered (including appendices) and page limits are followed. Limit the use of abbreviations and acronyms, and define each one at its first use, and periodically throughout application.

Title: Court Improvement Program New Grants.

OMB No.: New Collection.

Description: The President signed the Deficit Reduction Act of 2005, Public Law 109-171, into law on February 8, 2006. The law authorizes and appropriates funds for two new grants under the Court Improvement Program under title IV-B, section 438 of the Social Security Act. The highest State

court in a State with an approved title IV-E plan is eligible to apply for either or both of the new grants. The new grants are for the purposes of: (1) Ensuring that the needs of children are met in a timely and complete manner through improved case tracking and analysis of child welfare cases, and (2) training judges, attorneys and other legal personnel in child welfare cases and conducting cross-training with child welfare agency staff and contractors.

The statute requires separate applications for these two new grants. The annual burden estimates below describe the estimated burden for each of the new grants. ACF proposes to collect information from the State about their work under these grants (applications, program reports) by way of a Program Instruction, which will be issued by June 14, 2006. This Program Instruction will describe the programmatic and fiscal provisions and reporting requirements for each of the grants, specify the application submittal and approval procedures for the grants for fiscal years 2006 through 2010 and identify technical resources for use by State courts during the course of the grants. The agency will use the information received to ensure compliance with the statute and provide training and technical assistance to the grantees.

Respondents: State Courts.
