

Corporate Operations, Southwestern Power Administration, One West Third, Tulsa, OK 74103 (918) 595-6696.

A Public Information and Comment Forum is scheduled for July 12, 2006, to explain to the public the proposed rates and supporting studies and to allow for comment. The proceeding will be transcribed. A chairman, who will be responsible for orderly procedure, will conduct the Forum. Questions concerning the rates, studies, and information presented at the Forum will be answered, to the extent possible, at the Forum. Questions not answered at the Forum will be answered in writing, except that questions involving voluminous data contained in Southwestern's records may best be answered by consultation and review of pertinent records at Southwestern's offices.

Persons desiring to attend the Forum should indicate in writing (address cited above) by letter, email or facsimile transmission (918-595-6656) by July 1, 2006, their intent to appear at such Forum. If no one so indicates his or her intent to attend, no such Forum will be held. Persons interested in speaking at the Forum should submit a request to Mr. Forrest E. Reeves, Assistant Administrator, Southwestern, at least seven (7) calendar days prior to the Forum so that a list of forum participants can be developed. The chairman may allow others to speak if time permits.

A transcript of the Forum will be made. Copies of the transcript may be obtained, for a fee, from the transcribing service. Copies of all documents introduced will also be available from the transcribing service upon request for a fee. Five copies of all written comments, together with a diskette or compact disk in MS Word, on the proposed Integrated System Rates are due on or before August 15, 2006. Comments should be submitted to Forrest E. Reeves, Assistant Administrator, Southwestern, at the above-mentioned address for Southwestern's offices.

Following review of the oral and written comments and the information gathered in the course of the proceeding, the Administrator will submit the finalized Integrated System Rate Proposal, Power Repayment Studies, and Rate Design Study in support of the proposed rates to the Deputy Secretary of Energy for confirmation and approval on an interim basis, and subsequently to the Federal Energy Regulatory Commission (Commission) for confirmation and approval on a final basis. The Commission will allow the public an

opportunity to provide written comments on the proposed rate increase before making a final decision.

Dated: May 30, 2006.

Michael A. Deihl,
Administrator.

Once in the system, select "search" then key in the docket ID number identified above.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in <http://www.regulations.gov>. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, as

whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in <http://www.regulations.gov>. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Notification of Substantial Risk of Injury to Health and the Environmental under TSCA Sec. 8(e).

ICR Status: This is a request to renew an existing approved collection. This ICR is scheduled to expire on June 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while submission is pending at OMB.

Abstract: Section 8(e) of the Toxic Substances Control Act (TSCA) requires that any person who manufactures, imports, processes or distributes in commerce a chemical substance or mixture and which obtains information that reasonably supports the conclusion that such substance or mixture presents a substantial risk of injury to health or the environment must immediately inform EPA of such information. EPA routinely disseminates TSCA section 8(e) data it receives to other Federal agencies to provide information about newly discovered chemical hazards and risks.

Responses to the collection of information are mandatory (see 15 U.S.C. 2607(e)). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average between 5 hours and 51 hours per response, depending upon the type of submission. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and

providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture, import, process or distribute in commerce a chemical substance or mixture and which obtain information that reasonably supports the conclusion that such substance or mixture presents a substantial risk of injury to health or the environment.

Frequency of Collection: On occasion.

Estimated average number of responses for each respondent: 1.3.

Estimated No. of Respondents: 345.

Estimated Total Annual Burden on Respondents: 18,135 hours.

Estimated Total Annual Costs: \$979,290.

Changes in Burden Estimates: This request reflects an increase of 11,704 hours (from 6,431 hours to 18,135 hours) in the total estimated respondent burden from that currently in the OMB inventory. This increase is primarily due to an increase in estimated managerial and technical staff time to review and evaluate data to determine section 8(e) reportability, as well as the incorporation of two additional factors not previously considered separately, based on industry comments on the proposed ICR published in the **Federal Register**. Estimated managerial and staff time to review and evaluate data was revised upward from 25 to 45 hours, considering that many large companies may depend on a committee or team rather than one person to decide whether data are reportable. The other factors added to the estimate of submitter reporting burden are staff training for TSCA 8(e) regulatory requirements (4 hours per submission) and taking into account the time and resources needed to review data that may not be ultimately reported (estimated to be 50% of the number of initial section 8(e) submissions). This change is an adjustment.

Dated: June 8, 2006.

Director, Collection Strategies Division.
