

to occur. The requirements of the certification program were designed to ensure that *Ralstonia solanacearum* race 3 biovar 2 will not be introduced into the United States through the importation of articles of *Pelargonium* spp. and *Solanum* spp. This bacterial strain causes potato brown rot, which causes potatoes to rot through, making them unusable and seriously affecting potato yields.

The certification program requires the collection of information through phytosanitary certificates (foreign), trust funds, and compliance agreements.

We are asking the Office of Management and Budget (OMB) to approve these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Growers, State plant regulatory officials.

Estimated annual number of respondents: 27.

Estimated annual number of responses per respondent: 37.851851.

Estimated annual number of responses: 1,022.

Estimated total annual burden on respondents: 1,022 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of June 2006.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Veterinary Services; Customer Service Survey.

OMB Number: 0579-XXXX.

Type of Request: Approval of a new information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture regulates, and provides services related to, the importation, interstate movement, and exportation of animals, animal products, and other articles to prevent the spread of pests and diseases of livestock. Veterinary Services (VS) is the program unit that carries out these activities to protect animal health.

In an effort to evaluate service delivery in its area offices and import/export facilities, VS plans to conduct a customer service survey. The survey would be in the form of a short questionnaire that VS would present to individuals who use its services. Completion of the questionnaire would be voluntary, and responses would not identify the individual respondent. Respondents would be asked to identify the type of customer they are (e.g., pet importer/exporter, farm animal importer/exporter, accredited veterinarian, etc.), and then to rate the services received in terms of courtesy, timeliness, helpfulness, etc., as well as rate the overall experience. The questionnaire would also allow respondents to provide comments.

The information collected would be used to identify areas in which VS can improve service delivery and more efficiently meet the needs and expectations of customers.

We are asking the Office of Management and Budget (OMB) to approve this information collection activity for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.083 hours per response.

Respondents: Members of the public who receive services from VS area offices and import/export facilities.

Estimated annual number of respondents: 5,000.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 5,000.

Estimated total annual burden on respondents: 415 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Federal Crop Insurance Corporation

Funding Opportunity; Commodity Partnerships for Risk Management Education (Commodity Partnership Program)

Announcement Type: Availability of Funds and Request for Application for Competitive Cooperative Partnership Agreements—Initial.

CFDA Number: 10.457.

Dates: Application are due 5 p.m. EDT, July 17, 2006.

Executive Summary

The Federal Crop Insurance Corporation (FCIC), operating through the Risk Management Agency (RMA), announces the availability of approximately \$500,000 for Commodity Partnerships for Risk Management Education (the Commodity Partnerships program). Since the Agricultural Risk Protection Act of 2000 authorized the use of partnerships to provide risk management education, RMA has annually offered partnerships to provide education to producers of crops currently no insured under Federal crop insurance, specialty crops, and underserved commodities, including livestock and forage (priority commodities). Even though these partnerships have been very successful, there is a segment of producers that have not been reached with these education programs—refugees and low income individuals who produce, or who are undertaking to establish a business producing, priority commodities (target producers). The purpose of this cooperative partnership agreement program is to deliver risk management training and information to these producers. A maximum of ten partnership agreements will be funded. The maximum award for any of the ten cooperative partnership agreements will be \$50,000. Recipients of awards must demonstrate non-financial benefits from a cooperative partnership agreement and must agree to the substantial involvement of RMA in the project.

A. Legislative Authority

The Commodity Partnerships program is authorized under section 552(d)(3)(F) of the Federal Crop Insurance Act (Act) (7 U.S.C. 1522(d)(3)(F)).

B. Background

RMA promotes and regulates sound risk management solutions to improve the economic stability of American agriculture. On behalf of FCIC, RMA does this by offering Federal crop insurance products through a network of private-sector partners, overseeing the creation of new risk management products, seeking enhancements in
