Section 302 (b) of the P&S Act requires the Secretary to determine which stockyards meet this definition, and to notify the owner of the stockyard and the public of that determination by posting a notice in each designated stockyard. After giving notice to the stockyard owner and to the public, the stockyard will be subject to the provisions of Title III of the P&S Act (7 U.S.C. 201–203 and 205–217a) until the Secretary deposes the stockyard by public notice.

This document notifies the stockyard owners and the public that the following stockyard meets the definition of stockyard and that we propose to designate the stockyard as a posted stockyard.

Facility No.	Stockyard name and location
KY-179 ....	Steve Newman d.b.a. Steve Newman Horse Auctions, Powderly, Kentucky.

This document also notifies the public that the following stockyards meet the definition of stockyard and

that we have posted the stockyards. We published notices proposing to post these 7 stockyards on July 6, 2004 and July 25, 2005 (69 FR 40597 and 70 FR 42532, respectively). We received no comments in response to these proposed posting notices. To post a stockyard, we assign the stockyard a facility number, notify the owner of the stockyard facility, and send notices to the owner of the stockyard to post on display in public areas of the stockyard. The date of posting is the date on which the posting notices are physically displayed.

We published notices proposing to post these 4 stockyards on July 24, 1997, July 6, 2004, and July 25, 2005 (62 FR 39805, 69 FR 40597, and 70 FR 42532, respectively). The facilities were not posted because they no longer meet the definition of a stockyard. The facilities were either abandoned or underwent a change so that they no longer function as a stockyard.

Additionally, this document notifies the public that the following four stockyards no longer meet the definition

of stockyard and that we are deposing the facilities. We deposit a stockyard when the facility can no longer be used as a stockyard. Some of the reasons a facility can no longer be used as a stockyard include: The facility has been moved and the posted facility is abandoned, the facility has been torn down or otherwise destroyed, such as by fire, the facility is dilapidated beyond repair, or the facility has been converted and its function changed.

**Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permit (EFP)**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Notification of a proposal for an EFP to conduct experimental fishing; request for comments.

**SUMMARY:** The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator) has made a preliminary determination that the subject EFP application submitted by Truex Enterprises contains all the required information and warrants further consideration. The proposed EFP would test the safety and efficacy of harvesting surfclams and ocean quahogs from the Georges Bank Closure Area using a harvesting protocol developed by the U.S. Food and Drug Administration. The Assistant Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Atlantic Surfclam and Ocean Quahog regulations and Fishery

Management Plan (FMP). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, NMFS announces that the Assistant Regional Administrator proposes to recommend that an EFP be issued that would allow one commercial fishing vessel to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP would allow for an exemption from the Atlantic surfclam and ocean quahog Georges Bank (GB) Closure Area.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

**DATES:** Comments on this document must be received on or before July 19, 2006.

**ADDRESSES:** Comments on this notice may be submitted by e-mail.

The mailbox address for providing e-mail comments is [DA6114@noaa.gov](mailto:DA6114@noaa.gov). Include in the subject line of the e-mail comment the following document identifier: "Comments on GB PSP Closed Area Exemption." Written comments should be sent to Patricia A. **SUPPLEMENTARY INFORMATION:** Truex Enterprises of New Bedford, MA submitted an application for an EFP on March 30, 2006. Additional information was received on April 19, 2006, completing the application. The experimental fishing application requests authorization to allow the catch and retention for sale of Atlantic surfclams and ocean quahogs from within the Atlantic surfclam and ocean quahog GB Closure Area. This area, located east of 69°00 W. long. and south of 42°20 N. lat., was closed on May 25, 1990. This closure was implemented based on the advice from the U.S. Food and Drug Administration (FDA) after samples of surfclams from the area tested positive for the toxins (saxotoxins) that cause Paralytic Shellfish Poisoning (PSP). These toxins are produced by the algae *Alexandrium fundyense* that can form blooms commonly referred to as red tides. Red tide blooms, also known as harmful
