Federal Register

Vol. 71, No. 118

Tuesday, June 20, 2006

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

June 15, 2006.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: National Animal Health Reporting System (NAHRS).

OMB Control Number: 0579-NEW.

Summary of Collection: The National Animal Health Reporting System (NAHRS) was developed through a cooperative effort between the United States Animal Health Association, the American Association of Veterinary Laboratory Diagnosticians, and the Animal and Plant Health Inspection Service (APHIS). NAHRS provides an ongoing national measure of the health status of the nation's livestock. The National Center for Animal Health Surveillance involvement in this voluntary monitoring activity is to facilitate standardization of the data throughout the United States and provide a central point for national collection. The evolving international trade arena and increased competition have heightened the need to have accurate, timely information to maintain and increase U.S. animal agriculture's overseas market share.

Need and Use of the Information: The objective of the NAHRS is to collect data needed to report the presence of confirmed clinical disease in commercial livestock, poultry, and aquaculture species in the U.S. These reports are required for membership by the Office International des Epizooties, and to meet international trade reporting requirements for animal health. On a monthly basis State veterinarians in each of the 50 States are asked to complete the NAHRS Reportable Disease List Form. The form collects qualitative data from reporting States on the confirmed presence or absence of diseases, but does not collect or report the number of cases.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 50.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 2,400.

Ruth Brown,

Departmental Information Collection Clearance Officer.

[Docket No. APHIS-2006-0015]

Availability of an Addendum to an Environmental Assessment for Field Release of Genetically Engineered Pink Bollworm

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we have supplemented with an addendum the environmental assessment for a proposed field trial of pink bollworm genetically engineered to express green fluorescence as a marker. The Animal and Plant Health Inspection Service (APHIS) proposes to use this marked strain to assess the effectiveness of lower doses of radiation to create sterile insects for its pink bollworm sterile insect program. This program, using sterile insect technique, has been conducted by APHIS, with State and grower cooperation, since 1968. Data gained from this field experiment will be used to improve the current program. APHIS has supplemented its environmental assessment in order to evaluate a new location and new conditions for the field test. The addendum is available to the public for review and comment.

DATES: We will consider all comments that we receive on or before July 5, 2006.

ADDRESSES: You may submit comments by either of the following methods:

Federal eRulemaking Portal: Go to <http://www.regulations.gov> and, in the lower "Search Regulations and Federal Actions" box, select "Animal and Plant Health Inspection Service" from the agency drop-down menu, then click on "Submit." In the Docket ID column, select APHIS-2006-0015 to submit or view public comments and to view supporting and related materials available electronically. Information on using Regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site's "User Tips" link.

Postal Mail/Commercial Delivery: Please send four copies of your
