NARA Facility Locations and Hours

AGENCY: National Archives and Records Administration (NARA).

ACTION: Final rule.

SUMMARY: NARA is revising its regulations on the locations and hours of NARA facilities to reflect the relocation of two facilities in the past fiscal year. This final rule will affect the public.

DATES: *Effective Date:* Effective June 20, 2006.

FOR FURTHER INFORMATION CONTACT:

Laura McCarthy at 301-837-3023.

SUPPLEMENTARY INFORMATION: The proposed rule was published in the May 12, 2006, **Federal Register** (71 FR 27653) for a 30-day comment period. Notification of user groups occurred following publication of the proposed rule.

NARA received no comments on the proposed rule and therefore is issuing the final rule with no changes.

This rule is effective upon publication for "good" cause as permitted by Administrative Procedure Act (5 U.S.C. 553(d)(3)). NARA believes that delaying the effective date for 30 days is unnecessary as this rule represents minor technical amendments. Moreover,

as the public benefits immediately with correct addresses and hours for the relocated NARA facilities, any delay in the effective date would be contrary to the public interest.

This rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this rule will not have a significant impact on a substantial number of small entities because this rule applies to agencies and individual researchers. This regulation does not have any federalism implications. This rule is not a major rule as defined in 5 U.S.C. Chapter 8, Congressional Review of Agency Rulemaking.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 261

[SW-FRL-8185-4]

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Removal of Final Rule

AGENCY: Environmental Protection Agency.

ACTION: Removal of final rule.

SUMMARY: The Environmental Protection Agency (EPA) is removing its final rule to grant a petition submitted by Tokusen U.S.A, Inc. to exclude (or delist) a certain F006 filter cake generated by its Conway, Arkansas Plant from the lists of hazardous wastes. This rule removes the final rule published in 67 FR 79874 (December 31, 2002). The EPA has received data from the facility indicating that the waste currently generated is no longer representative of the waste for which the petition was submitted. EPA acknowledges these changes and has requested that Tokusen withdraw its petition. Tokusen may submit a new delisting petition for the waste stream at any time.

DATES: Effective June 20, 2006.

FOR FURTHER INFORMATION CONTACT:

Michelle Peace by mail at U.S. EPA Region 6, Multimedia Planning and Permitting Division, Corrective Action and Waste Minimization Section (6PD-C), 1445 Ross Avenue, Dallas, TX 75202, by phone at (214) 665-7430 or by e-mail at peace.michelle@epa.gov.

SUPPLEMENTARY INFORMATION: On December 31, 2002, at 67 FR 79874, EPA finalized an exclusion from the list of hazardous wastes for Tokusen U.S.A., Inc in Conway, Arkansas. On November 8, 2004, EPA received information from the facility that the concentrations of zinc were elevated above the delisting exclusion concentrations. Tokusen withdrew its delisting petition, submitted October 24, 2001, for the F006 filter cake on January 6, 2006. The Tokusen U.S.A., Inc, Conway AR, exclusion found in 40 CFR part 261, appendix IX, Table 1 will be removed from the Code of Federal Regulations.
