

current habitat management. Hunting and fishing will continue with greater emphasis on increasing opportunities and enhancing the quality of the experience, including those for youth and disabled hunters/anglers. Education and interpretation will be promoted while providing programs and partnerships with local schools. Wildlife observation and photography opportunities will be expanded. Information guides and signage that highlight management programs, as well as unique wildlife habitats, will also be developed. Efforts will be undertaken to improve road maintenance in order to provide better visitor access.

The Service intends to construct a visitor center and headquarters office on Reelfoot, Chicksaw, and Lower Hatchie Refuges, with space for interpretation, environmental education, and staff.

Research studies will continue to be fostered and partnerships developed with other agencies and universities, with the refuges providing needed resources and study sites. Research will also provide benefits to conservation efforts throughout the Lower Mississippi River Valley to conserve, enhance, restore, and manage bottomland hardwood habitat. Inventorying and monitoring of birds, freshwater mussels, reptiles, and amphibians will be continued and expanded in order to assess population trends, correlate with environmental pressures, and provide baseline data to be used in development of appropriate management strategies. Providing additional staff (e.g., wildlife biologist, outdoor recreation planner, maintenance workers, and an additional full-time law enforcement officer) will enable the Service to fully develop and manage fish and wildlife resources and habitats, provide opportunities and facilities for wildlife observation and photography, provide environmental educational programs that promote a greater understanding of natural resources, and protect natural and cultural resources.

Under this alternative, the refuges will continue to acquire lands within the present acquisition boundaries for the use of compatible wildlife-dependent public recreation and environmental education opportunities. Tracts that provide better-quality habitat and connectivity to existing refuge lands will receive higher priority for acquisition. The refuges will also use other important acquisition tools, including partnerships with conservation organizations, conservation easements with adjacent landowners, and leases/cooperative agreements.

Public comments were requested, considered, and incorporated throughout the planning process in numerous ways. Public outreach included open houses, public meetings, technical workgroups, planning update mailings, and **Federal Register** notices. During the draft comprehensive conservation plan/environmental assessment comment period for each refuge, the Service received several comments, which were incorporated, when appropriate, and responded to in the final comprehensive conservation plan.

Authority: This notice is published under the authority of the National Wildlife Refuge System Improvement Act of 1997, Public Law 105-57.

Dated: April 4, 2006.

Cynthia K. Dohner,

Acting Regional Director.

BILLING CODE 4310-55-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Draft Study Plan

AGENCY: Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), on behalf of the Department of the Interior (DOI) as a natural resource trustee, announces the release for public review of the Draft Study Plan for a mink injury study for the Hudson River Natural Resource Damage Assessment (NRDA). The Draft Study Plan describes the Trustees' proposed approach to conducting this investigation, and seeks public feedback.

DATES: Written comments must be submitted on or before July 15, 2006.

ADDRESSES: Requests for copies of the Draft Study Plan may be made in person or by mail to: Ms. Kathryn Jahn, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045. Written comments or materials regarding the Draft Study Plan should be sent to the same address.

FOR FURTHER INFORMATION CONTACT: Kathryn Jahn, Environmental Contaminants Branch, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045.

Interested parties may also call 607-753-9334, send electronic mail to kathryn_jahn@fws.gov, or visit the FWS Hudson River NRDA Web site (<http://www.fws.gov/contaminants/restorationplans/HudsonRiver/HudsonRiver.cfm>) where the Draft Study Plan is posted.

www.fws.gov/contaminants/restorationplans/HudsonRiver/HudsonRiver.cfm) where the Draft Study Plan is posted.

SUPPLEMENTARY INFORMATION: Natural resources of the Hudson River have been contaminated though past and ongoing discharges of polychlorinated biphenyls (PCBs). The Hudson River Natural Resource Trustees—New York State, the U.S. Department of Commerce, and the U.S. Department of the Interior, are conducting a NRDA to assess those natural resources injured by PCBs. The Draft Study Plan is being released for public review and comment in accordance with the Trustees' NRDA Plan for the Hudson River issued in September 2002. That NRDA Plan was released in accordance with the Natural Resource Damage Assessment regulations found at Title 43 of the Code of Federal Regulations, part 11.

Pursuant to the Hudson River NRDA plan, the Trustees have developed this Study Plan for a mink injury determination effort. Interested members of the public are invited to review and comment on the Draft Study Plan (see **ADDRESSES, FOR FURTHER INFORMATION CONTACT**). All comments received on the Draft Study Plan will be considered and a response provided either through incorporation into the Final Study Plan or by letter to the commenter. The Trustees will also prepare a Responsiveness Summary, responding to public comments, that will be released to the public.

Author: The primary author of this notice is Ms. Kathryn Jahn, New York Field Office, U.S. Fish and Wildlife Service, 3817 Luker Road, Cortland, NY 13045.

Authority: The authority for this action is the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9601 *et seq.*

Dated: June 14, 2006.

Richard O. Bennett,

Acting Regional Director, Region 5, U.S. Fish and Wildlife Service.

BILLING CODE 4312-51-P

DEPARTMENT OF THE INTERIOR**Office of Surface Mining Reclamation and Enforcement****Request for Determination of Valid Existing Rights Within the Daniel Boone National Forest, Kentucky**

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice and request for comment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSM), are providing opportunity for the public to comment on a request for a determination of valid existing rights (VER) to use an existing Forest Service road as a coal mine access and haul road across Federal lands within the boundaries of the Daniel Boone National Forest in Owsley County, Kentucky. The mine would be located on privately owned land.

DATES: We will accept electronic or written comments until 4 p.m. Eastern time on July 20, 2006. Requests for an extension of the comment period must be received by the same time.

ADDRESSES: You may submit comments by any of the following methods:

- *Mail/Hand-Delivery/Courier:*

William J. Kovacic, Director, Lexington Field Office, 2675 Regency Road, Lexington, Kentucky 40503.

- *E-mail: dbeam@osmre.gov.*

For detailed instructions on submitting comments, see "V. How Do I Submit Comments on the Request?" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

William J. Kovacic, Director, Lexington Field Office, 2675 Regency Road, Lexington, Kentucky 40503.

Telephone: (859) 260-8402. *Fax:* (859) 260-8410. *E-mail: bkovacic@osmre.gov.*

SUPPLEMENTARY INFORMATION

- I. What is the Nature of the VER Determination Request?
- II. What Legal Requirements Apply to this Request?
- III. What Information is Available Relevant to the Basis for the Request?
- IV. How Will We Process the Request?
- V. How Do I Submit Comments on the Request?

I. What Is the Nature of the VER Determination Request?

On February 23, 2006, QORE Property Sciences (QORE) submitted a request for a determination of VER on behalf of Sturgeon Mining Company, Inc. (Sturgeon). Sturgeon is proposing to conduct surface coal mining operations on approximately 424 acres of privately owned land near Watches Branch of Laurel Fork in the southeast corner of Owsley County, Kentucky. The property to be mined is adjacent to the Daniel Boone National Forest.

QORE is seeking a determination that Sturgeon has VER under paragraph (c)(1) of the definition of VER in 30 CFR 761.5 to use an existing road across Federal lands within the Daniel Boone National Forest as an access and haul road for the proposed mine. No other surface coal mining operations would be conducted on Federal lands within the Daniel Boone National Forest as part of this mine.

II. What Legal Requirements Apply to This Request?

Section 522(e)(2) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act), 30 U.S.C. 1272(e)(2), prohibits surface coal mining operations on Federal lands within the boundaries of any national forest, with two exceptions. The first exception

pertains to surface operations and impacts incidental to an underground coal mine. The second relates to surface operations on lands within national forests west of the 100th meridian. Neither of those exceptions applies to the request now under consideration.

The introductory paragraph of section 522(e) also provides two general exceptions to the prohibitions on surface coal mining operations in that section. Those exceptions apply to operations in existence on the date of enactment of the Act (August 3, 1977) and to land for which a person has VER. SMCRA does not define VER. We subsequently adopted regulations defining VER and clarifying that, for lands that come under the protection of 30 CFR 761.11 and section 522(e) after the date of enactment of SMCRA, the applicable date is the date that the lands came under protection, not August 3, 1977.

On December 17, 1999 (64 FR 70766-70838), we adopted a revised definition of VER, established a process for submission and review of requests for VER determinations, and otherwise modified the regulations implementing section 522(e). At 30 CFR 761.16(a), we published a table clarifying which agency (OSM or the State regulatory authority) is responsible for making VER determinations and which definition (State or Federal) will apply. That table specifies that OSM is responsible for VER determinations for Federal lands within national forests and that the Federal VER definition in 30 CFR 761.5 applies to those determinations.

Paragraph (c) of the Federal definition of VER contains the standards applicable to VER for roads that lie within the definition of surface coal mining operations. QORE is seeking a VER determination under paragraph (c)(1), which provides that a person who claims VER to use or construct a road across the surface of lands protected by 30 CFR 761.11 or section 522(e) of SMCRA must demonstrate that the "road existed when the land upon which it is located came under the protection of § 761.11 or 30 U.S.C. 1272(e), and the person has a legal right to use the road for surface coal mining operations."

Based on other information available to us, we also are considering whether VER might exist under the standard in paragraph (c)(3), which requires a demonstration that a "valid permit for use or construction of a road in that location for surface coal mining operations existed when the land came under the protection of § 761.11 or 30 U.S.C. 1272(e)."
