

performance of non-abandoned wells and production facilities for individual leases. This includes drilling and other well operations and engineering data for individual well production and injection. The lessee also reports any environmental monitoring conducted.

The lessee may request a lease extension beyond the primary term by drilling, diligent efforts, production of byproducts, and unit commitment. We use the non-form information to determine if a lessee qualifies to extend its geothermal lease. The lessee submits the following non-form reports under 43 CFR subpart 3208:

- (1) Diligent Efforts Report;
- (2) Bona Fide Efforts Report; and
- (3) Significant Expenditures Report.

Based on our experience administering the activities, we estimate it takes from 1 to 10 hours per response to complete the required information, depending on which form or report the respondent submits. Respondents are lessees and operators of Federal geothermal leases and Indian geothermal contracts subject to BLM oversight. We estimate 835 responses per year and a total annual burden of 1,850 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.
