Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.

Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

[Project No. 516-418]

South Carolina Electric & Gas Company; Notice of Availability of Environmental Assessment

June 12, 2006.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by South Carolina Electric & Gas Company (licensee) on February 21, 2006 requesting commission approval for non-project use of project lands and waters at the Saluda Hydroelectric

Project. The project is located on Lake Murray in Saluda County, South Carolina. The non-project use would include a water withdrawal of 15.0 million gallons per day for public drinking water, and a conveyance of 0.23 acres of project property along with a 40-foot wide ingress and egress easement for the purpose of constructing a raw-water pumping station and associated facilities. The water withdrawal would involve an inter-basin transfer from the Saluda River basin for use and discharge into the Lower Savannah River basin and the Edisto River basin.

The EA evaluates the environmental impacts that would result from approving the licensee's proposed water withdrawal and the construction of associated facilities. Some land disturbance and lake-bottom excavation would occur, but impacts to the terrestrial and aquatic resources are expected to be minor and short term. The EA finds that approval of the application for non-project use of project lands and waters would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Modifying and Approving Non-Project Use of Project Lands and Waters" issued June 9, 2006 and is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access documents.
