Natural Resources Conservation Service

Tongue River Watershed, Cavalier and Pembina Counties, ND

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); and the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Tongue River Watershed, Cavalier and Pembina Counties, North Dakota.

FOR FURTHER INFORMATION CONTACT: James E. Schmidt, Assistant State Conservationist for Water Resources, Natural Resources Conservation Service, 220 E. Rosser Avenue, Bismarck, North Dakota, at (701) 530-2074.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these

findings, J.R. Flores, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project purpose is to bring Tongue River Watershed Structure M-4 into compliance with current State and Federal dam design and safety criteria; to continue to provide flood protection and to reduce the risk of loss of human life. The planned works of improvement include rehabilitating and upgrading Renwick Dam by installing a roller compacted concrete auxiliary spillway, raising the top of the dam, and modifying the principal spillway to allow a one foot rise to the permanent pool to provide for sediment storage for the extended life of the structure. A two lane access road connecting recreation facilities on the north side of the lake to Icelandic State Park Headquarters on the south side of the park will be constructed on the upstream side of the embankment.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting James E. Schmidt, Assistant State Conservationist for Water Resources at (701) 530-2074.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

James E. Schmidt,

Assistant State Conservationist for Water Resources.

Finding of No Significant Impact for Tongue River Watershed Cavalier and Pembina Counties, North Dakota

Introduction

The Tongue River Watershed is a federally assisted action authorized for planning under Public Law 83-566, the Watershed Protection and Flood Prevention Act. An environmental assessment was undertaken in conjunction with the development of Supplement No. 2 of the watershed plan for the purpose of rehabilitating Renwick Dam 9 (Structure M-4) under Public Law 106-472. This assessment was conducted in consultation with local, State, and Federal agencies as well as with interested organizations and individuals. Data developed during the assessment are available for public
