Synopsis

State TRS programs should report all complaints made to the state agency, as well as those made to the state's TRS provider. TRS providers that provide interstate TRS, interstate STS, interstate Spanish relay, interstate captioned telephone relay, VRS, and IP Relay are required to submit complaint log summaries. These logs are intended to provide an early warning system to the Commission of possible service quality problems.

Additionally, this information allows the Commission to determine whether a state or interstate TRS provider has appropriately addressed consumer complaints and to spot national trends that may lend themselves to coordinated solutions. This information further enables states to learn how other states are resolving complaints.
